

Submitted Manuscript: *Staphylococcus aureus* and *Staphylococcus epidermidis* in the Gastrointestinal Tract

- **Written with the 2nd grade in mind but also would be good review for 3rd grade. (Bonomoni, 2014)**
- **60 half-sheet worm-ups**
- **Several math warm-ups are designed to help model mental math for students. Teacher should model the procedure first with students.**
- **At first, students should be allowed to use pencil, paper, and the grid on the worm-ups to complete the addition problems.**
- **After consistent practice, students should be able to move toward completing calculations in their head.**
- **The first 40 worm-ups include the visual manipulatives (base and ones).**
- **The last 10 worm-ups do not include the manipulatives but the guided questions are still there. This should help with the transition to mental math.**
