Math Work Stations Math Work Stations:

Math Work Stations Debbie Diller, 2023-10-10 If you've ever questioned how to make math stations work you'll find this photo-filled idea-packed resource invaluable. This book extends Debbie Diller's best-selling work on literacy work stations and classroom design to the field of mathematics. In *Math Work Stations* you'll find ideas to help children develop conceptual understanding and skills, use math vocabulary as they talk about their mathematical thinking, and connect big ideas to meaningful independent exploration and practice. This book details how to set up, manage, and keep math stations going throughout the year. There's even a chapter devoted solely to organizing and using math manipulatives. Each chapter includes key concepts based on NCTM and state math standards, math vocabulary resources, and literature links suggested materials to include at each station for the corresponding math content strand, ideas for modeling, troubleshooting, differentiating, and assessment, and reflection questions for professional development. Throughout the book, Debbie has included hundreds of color photos showing math work stations in action from a variety of classrooms in which she has worked. Charts, reproducible forms, and math work stations icons are included to provide everything you'll need to get started with stations in your classroom right away.

Guided Math Workstations 3-5 Laney Sammons, Donna Boucher, 2017-08-01 This invaluable professional resource instructs teachers on how to successfully implement Guided Math Workstations into grades 3-5 classrooms. With detailed instructions that are easily adopted into today's classrooms, this book contains everything teachers need to set up, plan, and manage workstations. Guided Math Workstations allow teachers to address their students' varied learning needs within a carefully planned numeracy-rich environment where students are challenged to not just do math but to become mathematicians. Teachers will be able to successfully target the specific needs of learners with small group lessons as students work independently on math workstation tasks. Each workstation task includes an overview of the lesson, materials, objective, procedure, and differentiation tactics; a Student Task card with directions and a materials list for the task to help with implementation and organization; a Talking Points card with math vocabulary words and sentence stems to encourage mathematical discourse; and additional resources for each task.
