possible or impossible nor desirable or undesirable to the extent that the respective ideologues on different sides would like us to believe Of course this reexamination of different opposing views on accounting does not mean that the study of addition and subtraction is useless or that those fields related to accounting like bookkeeping auditing forensics info management finance philosophy of accounting accounting ethics lean accounting mental accounting environmental audit creative accounting carbon accounting social accounting and so on are unimportant WK 2013 In fact neither of these extreme views is plausible Rather this book offers an alternative better way to understand the future of accounting in regard to the dialectic relationship between addition and subtraction while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other More specifically this book offers a new theory that is the double sided theory of accounting to go beyond the existing approaches in a novel way and is organized in four chapters This seminal project will fundamentally change the way that we think about accounting in relation to addition and subtraction from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate LIVING OUT THE PLAN Aloysius Aseervatham,2024-03-18 This book Living Out The Plan is a true life adventure The main character is the author himself who moved from Sri Lanka to England and then to Africa before making his final tent in Australia An innate teacher he never really deviated from that calling in life While much of the book tells of his successful contribution to the expansive world of teaching it is also a story of personal loss and tragedy as exemplified by his account of the loss of his dear wife Jasmine whom the author traveled the world with their three sons He fondly remembers his wife for her understanding and support she readily rendered to his life s success and contentment **Adult Catalog: Subjects** Los Angeles County Public Library,1970 *Directory of Scientific Directories* Anthony P.
