

For millions of years energy has been coming down from above to planet Earth, with the purpose of raising the frequencies of our planet.

With the dawning of the Golden Age - which began with the end of the Mayan Calendar on the 23rd December 2012 - and its Golden Energy, things are starting to change.

The Golden Energy and its materialisation power have been hidden deep inside the Earth for millions of years, waiting for us humans to be ready to use them in a constructive and positive way, for the benefit of the Earth and of mankind.

Planet Earth is the epicentre of the integration of all energies and knowledge coming from the other planets in our solar system. The time is now right for Earth itself to take on the responsibility for future development here - and this is where the Golden Energy will play a major role.

By activating the Golden Energy, you will help contribute to the Whole in the way you were born to do, by successfully living out your life purpose on a daily basis, using your spirit energy.

This book will give you essential new insight as to how you fit into the bigger picture.

Scandinavian author, Anni Sennov, is highly clairvoyant on the spiritual level and she has, over the years, helped many spiritual seekers to find their different consciousness platforms in life, thanks to her books, courses, workshops, lectures, transformational webinars and personal consultations.

The Golden Age Playbook for a New Earth Order Jenö Joseph Giordano, 2024-12-24 The Golden Age Playbook for a New Earth Order After seven years of preparing for what has been more than just a story but our future Perhaps Fate will determine the course in which follows as I know the implications of my transgressions But also the Natural Truth of being bold in the face of adversity and the insurmountable fear that stands opposed to these Natural Truths The time has come for those who seek the unfiltered truth of how the Earth works And what is required to navigate the changes required to leverage the narrow passage we have before us This is not an invitation but a declaration of what is already occurring You can do what you wish with this information But know this The Golden Age is not asking it's happening This is not about one human leading humans but a state of beingness that begins inside who you are who we are where we live where we want to go what we want to do about it how we need to resolve it and the playbook that we become in order to arrive at the destination Therefore avoid the fear of propaganda which has so ever divulged us into evaporating what nature we have left in us and return back to who we are in the natural form While bringing the new age of gadgets we possess towards our future Know this there has been a wake of bones buried in the making of this heroes sacrificing to make room for a narrow passage to exist Lives are on the line for those locked into this manifestation of

The Power of Your Truth in the Golden Age Angela Mia White, 2019-09-18 The Power of Your Truth in the Golden Age by author Angela Mia White makes you feel as if you re entering a new world because you are It holds a high vibration for your soul and new earth and you ll feel it It s come at this time to change the energy on the planet White shares how this planet has been shifting rapidly into a new consciousness This is the passageway to enter a new era the golden age The ways of old earth no longer work As humans she tells how we must leave the old ways behind and learn to live in and dance with the new energies into the new ways We need to learn to heal ourselves for good We need to learn to love ourselves have peace within stand in the power of our own truth and accept we are the abundance of our own life We have come out of the dark ages and we are entering a new age of light the golden age and now recently the golden age of Aquarius The Power of Your Truth in the Golden Age will activate you confirm to you why you are here and validate your experiences *The Sacred Theory of the Earth* Thomas Burnet, 2020-09-28 HAVING given an account of this whole Work in the first Chapter and of the method of either Book whereof this Volume consists in their proper places there remains not much to be said here to the Reader This Theory of the Earth may be call d Sacred because it is not the common Physiology of the Earth or of the Bodies that compose it but respects only the great Turns of Fate and the Revolutions of our Natural World such as are taken notice of in the Sacred Writings and are truly the Hinges upon which the Providence of this Earth moves or whereby it opens and shuts the several successive Scenes whereof it is made up This English Edition is the same in substance with the Latin though I confess tis not so properly a Translation as a new Composition upon the same ground there being several additional Chapters in it and several new moulded As every Science requires a peculiar Genius so likewise there is a Genius peculiarly improper for every one and as to Philosophy which is the Contemplation of the works of Nature and the Providence that governs them there is no temper or Genius in my mind so improper for it as that which we call a mean and narrow Spirit and which the Greeks call Littleness of Soul This is a defect in the first make of some Men s minds which can scarce ever be corrected afterwards either by Learning or Age And as Souls that are made little and incapacious cannot enlarge their thoughts to take in any great compass of Times or Things so what is beyond their compass or above their reach they are apt to look upon as Fantastical or at least would willingly have it pass for such in the World Now as there is nothing so great so large so immense as the works of Nature and the methods of Providence men of this complexion must needs be very unfit for the contemplation of them Who would set a purblind man at the top of the Mast to discover Land or upon an high Tower to draw a Landskip of the Country round about for the same reason short sighted minds are unfit to make Philosophers whose proper business it is to discover and describe in comprehensive Theories the Phenomena of the World and the Causes of them This original disease of the Mind is seldom cur d by Learning which cures many others Tis like a fault in the first Stamina of the Body which cannot easily be rectified afterwards Tis a great mistake to think that every sort of Learning makes a Man a competent Judge of Natural Speculations We see unhappy examples to the contrary amongst the Christian Fathers and

particularly in St Austin who was unquestionably a Man of Parts and Learning but interposing in a controversie where his Talent did not lie show d his zeal against the Antipodes to very ill purpose though he drew his Reasons partly from Scripture And if within a few Years or in the next Generation it should prove as certain and demonstrable that the Earth is mov d as it is now that there are Antipodes those that have been zealous against it and ingag d the Scripture in the Controversie would have the same reason to repent of their forwardness that St Austin would have now if he was alive Tis a dangerous thing to ingage the authority of Scripture in disputes about the Natural World in opposition to Reason lest Time which brings all things to light should discover that to be evidently false which we had made Scripture to assert And I remember St Austin in his Exposition upon Genesis hath laid down a rule to this very purpose though he had the unhappiness it seems not to follow it always himself The reason also which he gives there for his rule is very good and substantial 1For saith He if the Unbelievers or Philosophers shall certainly know us to be mistaken and to erre in those things that concern the Natural World and see that we alledge our Sacred Books for such vain opinions how shall they believe those same Books when they tell them of the RESURRECTION of the Dead and the World to come if they find them to be fallaciously writ in such things as lie within their certain knowledge

The Sacred Theory of the Earth (Complete) Thomas Burnet, 1907-01-01 Since I was first inclin d to the Contemplation of Nature and took Pleasure to trace out the Causes of Effects and the Dependance of one thing upon another in the visible Creation I had always methought a particular Curiosity to look back into the Sources and Original of Things and to view in my Mind so far as I was able the Beginning and Progress of a Rising World And after some Essays of this Nature and as I thought not unsuccessful I carried on my Enquiries further to try whether this Rising World when form d and finish d would continue always the same in the same Form Structure and Consistency or what Changes it would successively undergo by the continued Action of the same Causes that first produc d it and lastly what would be its final

Period and Consummation This whole Series and Compass of Things taken together I call d a Course of Nature or a System of Natural Providence and thought there was nothing belonging to the external World more fit or more worthy our Study and Meditation nor any thing that would conduce more to discover the Ways of Divine Providence and to shew us the Grounds of all true Knowledge concerning Nature And therefore to clear up the several Parts of this Theory I was willing to lay aside a great many other Speculations and all those dry Subtilties with which the Schools and the Books of Philosophers are usually fill d But when we speak of a Rising World and the Contemplation of it we do not mean this of the Great Universe for who can describe the Original of that vast Frame But we speak of the Sublunary World this Earth and its Dependencies which rose out of a Chaos about Six Thousand Years ago And seeing it hath fallen to our Lot to act upon this Stage to have our present Home and Residence here it seems most reasonable and the Place design d by Providence where we should first employ our Thoughts to understand the Works of God and Nature We have accordingly therefore design d in this Work to give an Account of the Original of the Earth and of all the great and general Changes that it hath already undergone or is hence forwards to undergo till the Consummation of all things For if from those Principles we have here taken and that Theory we have begun in these two first Books we can deduce with Success and Clearness the Origin of the Earth and those States of it that are already past following the same Thread and by the Conduct of the same Theory we will pursue its Fate and History thro future Ages and mark all the great Changes and Conversions that attend it while Day and Night shall last that is so long as it continues an Earth By the States of the Earth that are already past we understand chiefly Paradise and the Deluge Names well known and as little known in their Nature By the future States we understand the Conflagration and what new Order of Nature may follow upon that till the whole Circle of Time and Providence be compleated As to the first and past States of the Earth we shall have little help from the Ancients or from any of the Philosophers for the Discovery or Description of them We must often tread unbeaten Paths and make a Way where we do not find one but it shall be always with a Light in our Hand that we may see our Steps and that those that follow us may not follow us blindly There is no Sect of Philosophers that I know of that ever gave an Account of the Universal Deluge or discover d from the Contemplation of the Earth that there had been such a Thing already in Nature Tis true they often talk of an Alternation of Deluges and Conflagrations in this Earth but they speak of them as Things to come at least they give no Proof or Argument of any that hath already destroyed the World As to Paradise it seems to be represented to us by the Golden Age whereof the Ancients tell many Stories sometimes very luxuriant and sometimes very defective For they did not so well understand the Difference betwixt the new made Earth and the present as to see what were the just Grounds of the Golden Age or of Paradise though they had many broken Notions concerning those Things as to the Conflagration in particular This hath always been reckon d one amongst the Opinions or Dogmata of the Stoicks That the World was to be destroyed by Fire and their Books are full of this Notion but yet they do not tell us the Causes of the Conflagration nor what Preparations there are in Nature or will be

towards that great Change And we may generally observe this of the Ancients that their Learning or Philosophy consisted more in Conclusions than in Demonstrations they had many Truths among them whereof they did not know themselves the Premises or the Proofs Which is an Argument to me that the Knowledge they had was not a Thing of their own Invention or which they came to by fair Reasoning and Observations upon Nature but was delivered to them from others by Tradition and ancient Fame sometimes more publick sometimes more secret These Conclusions they kept in Mind and communicated to those of their School or Sect or Posterity without knowing for the most part the just Grounds and Reasons of them **The Spenser Encyclopedia** Albert Charles Hamilton,1997-01-01 A reference book for scholarship on Edmund Spenser offering a detailed literary guide to his life works and influence Over 700 entries by 422 contributors an index and extensive bibliography *A Golden Age Economy* Kim Andrew Lincoln,2013 Our economic success indeed our success in all things can only be assured if we faithfully follow the Universal Laws of Life the Laws which form the framework of the Universe and that hold it together A Golden Age Economy tells the incredible story of how and why we have an economy that does not work for 99% of people and what was done after the economic crisis to bring unparalleled prosperity to all It unravels a dark history that enables us to see clearly why the world has been designed to fail so that nothing works where there is poverty wickedness and corruption and where everything that once was pure has been perverted and poisoned by the power elite It reveals the evil plans of the fallen ones and unearths many of the mind blowing secrets they have used to enslave the world for thousands of years The book offers workable solutions to the problems it identifies whilst the author explains what we can do to create an economy that eradicates poverty and that will benefit everyone who multiplies their talents without causing harm to each other or our planet It is a blueprint to help a Golden Age economy manifest This expos is a must read for those who have had enough of our present economic problems and who want someone to explain to them what needs to be done to put things right It will also appeal to politicians who care about their constituents students of economics and anyone who wants to know how to bring more abundance material and otherwise into their lives **The 39th Golden Age of Science Fiction MEGAPACK®: John W. Lucretius on Creation and Evolution Gordon Lindsay Campbell, 2003 Lucretius account of the origin of life the origin of species and human prehistory is the longest and most detailed account extant from the ancient world It gives an anti teleological mechanistic theory of zoogony and the origin of species that does away with the need for any divine aid or design in the process and accordingly it has been seen as a forerunner of Darwin's theory of evolution This commentary locates Lucretius in both the ancient and modern contexts and treats Lucretius ideas as very much alive rather than as historical concepts The recent revival of creationism makes this study particularly relevant to contemporary debate and indeed many of the central questions posed by creationists are those Lucretius attempts to answer [The Theory of the Earth](#) Thomas Burnet, 1697 *Epic Pastures* Eleni Ntanou, 2025-03-17 Although nearly all scholars acknowledge that the *Metamorphoses* appears to engage with pastoral poetry there has not been a monograph specifically designed to address and explore the interaction between pastoral and epic in the *Metamorphoses* This book fills in this gap building on modern approaches to intertextuality Ovidian and pastoral studies The present book is comprised from five main chapters 1 Pastoral Encounters 2 Female Pastoral 3 Mourning Pastoral 4 Pastoral Ascent in the *Metamorphoses* 5 Pastoral Golden Age and the *Metamorphoses* The chapters are often in dialogue with one another thus offering a more sustained examination of the topic Alongside the lack of comprehensive monograph on pastoral in the *Metamorphoses* the present book's originality and contribution lie on the exploration of pastoral in the *Metamorphoses* through the lenses of fiction heroics and gender notions which are interwoven throughout the chapters This modern approach to generic interaction will be useful for scholars working on Ovid and across the range of Greek and Roman literature as well as for students of Classics [The 37th Golden Age of Science Fiction MEGAPACK®: John W. Christopher Star reveals the answers that Greek and Roman authors gave to these questions The first large scale investigation of the various scenarios for the end of the world in classical texts this book demonstrates that key thinkers often viewed their world as shaped by catastrophe Star focuses on how this theme was explored over the centuries in the works of poets such as Hesiod Vergil Ovid and Lucan and by philosophers including the Presocratics Plato Epicurus Lucretius Cicero and Seneca With possibilities ranging from periodic terrestrial catastrophes to the total dissolution of the world these scenarios address the ultimate limits that define human life and institutions and place humanity in the long perspective of cosmic and natural history These texts also explore various options for the rebirth of society after world catastrophe such as a return of the Golden Age or the redevelopment of culture and political institutions Greek and Roman visions of the end Star argues are not calls to renounce this world and prepare for a future kingdom Rather they are set within larger investigations that examine and seek to improve personal and political life in the present Contextualizing classical thought about the apocalypse with biblical studies Star shows that the seeds of our contemporary anxieties about globalization politics and technology were sown during the Roman period Even the prevalent link between an earthly leader and the beginning of the end times can be traced back to Greek and Roman rulers the emperor Nero in particular Apocalypse and Golden Age enriches our understanding of apocalyptic thought
