Good Bye Piccadilly British War Brides In America Statue Of Liberty Ellis Island:

Good-bye, Piccadilly Jenel Virden,1996 Though the women came to the U S from all parts of the British Isles they were an unusually homogeneous group averaging 23 years of age from working or lower middle class families and having completed mandatory schooling to the age of fourteen For the most part they emigrated alone and didn t move into an existing immigrant population Good-bye, Piccadilly Jenel Virden,1996 As much of the world tried to return to normal living and working patterns after World War II some 70 000 British women chose to be uprooted from the homeland they knew and loved These were British war brides a uniformly young group who by marrying American servicemen became part of the largest single group of female immigrants to the United States Though the women came to the U S from all parts of the British Isles they were an unusually homogeneous group averaging 23 years of age from working or lower middle class families and having completed mandatory schooling to the age of fourteen For the most part they emigrated alone and didn t move into an existing immigrant population Jenel Virden draws on records in the National Archives in Washington D C and the Public Record Office in London as well as questionnaires and personal interviews in relating the women s story Virden finds that the marriages actually took place in spite of rather than because of the war And while the women benefited from special nonrestrictive immigration legislation and found public welcomes and a good deal of favorable publicity when they arrived they also had much in common with other immigrant groups including a strong sense of ethnic identity

Immigrant Minds, American Identities Orm Øverland, 2000 Devised by individual ethnic leaders and spread through ethnic media banquets and rallies these myths were a response to being marginalized by the dominant group and a way of laying claim to a legitimate home in America BOOK JACKET World War II in Literature for Youth Patricia Hachten Wee, Robert James Wee, 2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource Britain to America William E. Van Vugt, 1999 From 1820 to 1860 the United States and Great Britain were the two most closely interconnected countries in the world in terms of culture and economic growth In an important addition to immigration history William Van Vugt explores who came to America from Great Britain during this period and why Disruptions and economic hardships such as the repeal of Britain's protective Corn Laws the potato famine and technological displacement do not account for the great mid century surge of British migration to America Rather than desperation and impoverishment Van Vugt finds that immigrants were motivated by energy tenacity and ambition to improve their lives by taking advantage of opportunities in America Drawing on county histories passenger lists of immigrant ships census data and manuscript collections in Great Britain and the United

States Van Vugt sketches the lives and fortunes of dozens of immigrant farmers miners artisans skilled and unskilled laborers professionals and religious nonconformists Merchants, Midwives, and Laboring Women Diane C. Vecchio, 2006 Diane C Vecchio s unique study considers the work experiences of Italian immigrant women and their daughters in the previously unexamined regions of Milwaukee Wisconsin and Endicott New York during the turn of the twentieth century Using Italian and American sources and rich oral histories this study reveals that women in Italy had economic responsibilities that often included work experiences outside of the home including jobs as midwives and businesswomen Demonstrating the regional variation of Italian women s work as well as the skills they transplanted to America balances the image of inexperienced and low skilled labourers that dominates scholarship on Italian working women Vecchio s research on Endicott sheds light on the gendered nature of life in a company town governed by welfare paternalism while her research on Milwaukee emphasizes how Italian immigrant women turned to small business enterprise when local opportunities for wage earning were limited

Beyond Cannery Row Carol Lynn McKibben,2006-01-04 Presenting a nuanced story of women migration community industry and civic life at the turn of the twentieth century Carol Lynn McKibben s Beyond Cannery Row analyzes the processes of migration and settlement of Sicilian fishers from three villages in Western Sicily to Monterey California and sometimes back again McKibben s analysis of gender and gender roles shows that it was the women in this community who had the insight the power and the purpose to respond and even prosper amid changing economic conditions Vividly evoking the immigrants everyday experiences through first person accounts and detailed description McKibben demonstrates that the cannery work done by Sicilian immigrant women was crucial in terms of the identity formation and community development These changes allowed their families to survive the challenges of political conflicts over citizenship in World War II and intermarriage with outsiders throughout the migration experience The women formed voluntary associations and celebrated festas that effectively linked them with each other and with their home villages in Sicily Continuous migration created a strong sense of transnationalism among Sicilians in Monterey which has enabled them to continue as a viable ethnic community today

Mexican Chicago Gabriela F. Arredondo, 2008 Becoming Mexican in early twentieth century Chicago

Dutch Immigrant Women in the United States, 1880-1920 Suzanne M. Sinke, 2002 Examining the domain of the home as well as the related realms of education religion health care and worldview Sinke discerns women s contributions to the creation and adaptation of families and communities pointing out how they differed from those of men Through Sinke s articulate and captivating descriptions of real women the statistical evidence comes to life providing valuable and heretofore unexamined views on the international marriage market language shifts the acquisition of American customs the church s role in adaptation and the shifting economies that allowed women to work outside the home A parallel analysis of the United States and the Netherlands as developing welfare states provides a fascinating look at what Dutch immigrant women left behind compared to what they faced in America regarding health care education and quality of life issues BOOK JACKET

A New Language, A New World Nancy C. Carnevale,2010-10-01 An examination of Italian immigrants and their children in the early twentieth century A New Language A New World is the first full length historical case study of one immigrant group s experience with language in America Incorporating the interdisciplinary literature on language within a historical framework Nancy C Carnevale illustrates the complexity of the topic of language in American immigrant life By looking at language from the perspectives of both immigrants and the dominant culture as well as their interaction this book reveals the role of language in the formation of ethnic identity and the often coercive context within which immigrants must negotiate this process
Making Lemonade out of Lemons José M. Alamillo,2023-03-20 Out of the lemons handed to Mexican American workers in Corona California low pay segregated schooling inadequate housing and racial discrimination Mexican men and women made lemonade by transforming leisure spaces such as baseball games parades festivals and churches into politicized spaces where workers voiced their grievances debated strategies for advancement and built solidarity Using oral history interviews extensive citrus company records and his own experiences in Corona Jos Alamillo argues that Mexican Americans helped lay the groundwork for civil rights struggles and electoral campaigns in the post World War II era
