GOVERNANCE AND POVERTY REDUCTION AMITA SINGH,KAPIL KAPOOR,RABINDRANATH

BHATTACHARYYA,2008-12-04 Poverty reduction in South Asia is a precondition for sustaining any form of reforms in governance The new public management reforms which started in South Asia from Sri Lanka taking the initiative in 1977 78 have been a decisive break from the previously practised State driven protectionist system Investment in the region has been rising and even per capita income has shown some increase yet the state has not been able to lead these reforms appropriately and efficiently Thus poverty has not been reduced ordinary people continue to languish under government programmes and the socially excluded remain outside the mainstream decision making bodies Governance in South Asia faces the single most important challenge of poverty reduction which continues to blunt and disfigure capacity self esteem and service delivery system to the poor This book attempts to bring out microlevel studies from many regions in South Asia to address issues of entrepreneurship knowledge and professionalism As an initiator of the idea on developing a critique to the straightjacketed best practice research this book questions the standard practice in evaluating administrative reforms as not being the true base for knowledge Administrators need to balance capacity and control in every implementation programme Confining to the knowledge of best practices may conceal enormous amount of information from the less than best practices which may be necessary to sustain good initiatives of public managers This book highlights areas of active networking partnerships and collaborations amongst state and non state bodies NGOs and specialist Science and Technical Organizations The true nature of governance is explained and demonstrated through the processes which otherwise pass off undetected in macro understanding of governance Mapping Governance Innovations Sangita Dhal,Nachiketa Singh,Amir

Implementation is a less understood but a much debated area of governance research It requires micro level analysis of government agencies service delivery departments and stakeholders on one hand and its national and global policy level connections on the other Implementation studies are above disciplinary divides and subsequent disjunctions which inhibit explorations on policy downsides or failures The studies relate to the new initiatives which governments across the region have undertaken to reach out to the MDG targets agreed upon in 2000 The focus of analysis is the policy framework local capacities of both the government agencies and people in drawing partnerships with relevant expert groups ability to bring transparency and accountability measures in transactions for cost effective results leadership and sustainability dimensions which influence the functioning of local agencies The book is especially important in the background of 15 voluminous Administrative Reforms Commission Reports accumulating dust in India and similar efforts lying unattended in many other countries of this region as well Countries like Malaysia which has focused upon implementation strategies combined with timely evaluation and supervision of administrative agencies has almost achieved most of their committed MDGs A special report of Malaysian efforts initiates the debate of moving beyond the best practice research in implementation arena The central idea of this book is to demonstrate the role of communities in making governance effective and government responsive to the needs of people
