The Queer Outside in Law Senthoran Raj, Peter Dunne, 2020-11-30 This book contributes to current debates about queer outsides and queer outsiders that emerge from tensions in legal reforms aimed at improving the lives of lesbian gay bisexual transgender intersex and queer people in the United Kingdom LGBTIQ people in the UK have moved from being situated as outlaws through prohibitions on homosexuality or cross dressing to respectable in laws through the emerging acceptance of same sex families and self identified genders From the partial decriminalisation of homosexuality in the Sexual Offences Act 1967 to the provision of a bureaucratic mechanism to amend legal sex in the Gender Recognition Act 2004 bringing LGBTIQ people inside the law has prompted enormous activist and academic

commentary on the desirability of inclusion focused legal and social reforms Canvassing an array of current socio legal debates on colonialism refugee law legal gender recognition intersex autonomy and transgender equality the contributing authors explore queer outsiders who remain beyond the law s reach and outline the ways in which these outsiders might seek to come within and or stay outside law Given its scope this modern work will appeal to legal scholars lawyers and activists with an interest in gender sex sexuality race migration and human rights law Not The Marrying Kind N.

Barker,2012-02-22 Not the Marrying Kind is a new and comprehensive exploration of the contemporary same sex marriage debates in several jurisdictions including Australia Canada South Africa the United Kingdom and the United States It departs from much of the existing scholarship on same sex marriage which argues either for or against marriage for same sex couples Instead this book begins from a critical analysis of the institution of marriage itself as well as separate forms of relationship recognition such as civil partnership PaCS domestic partnership and asks whether and how feminist critiques of marriage might be applied specifically to same sex marriage In doing this the author combines the theories of second wave feminism with insights from contemporary queer theory **Chinese Male Homosexualities** Travis Kong,2010-07-13 This

Johnson,2013-09-05 Homosexuality and the European Court of Human Rights is the first book length study of the Court s jurisprudence in respect of sexual orientation It offers a socio legal analysis of the substantial number of decisions and judgments of the Strasbourg organs on the wide range of complaints brought by gay men and lesbians under the European Convention on Human Rights Providing a systematic analysis of Strasbourg case law since 1955 and examining decades of decisions that have hitherto remained obscure the book considers the evolution of the Court s interpretation of the Convention and how this has fashioned lesbian and gay rights in Europe Going beyond doctrinal analysis by employing a nuanced sociological consideration of Strasbourg jurisprudence Paul Johnson shows how the Court is a site at which homosexuality is both socially constructed and regulated He argues that although the Convention is conceived as a living

instrument to be interpreted in the light of present day conditions the Court's judgments have frequently forged and advanced new social conditions in respect of homosexuality Johnson argues that the Court's jurisprudence has an extra legal importance because it provides an authoritative and powerful discursive resource that can be mobilized by lesbians and gay men to challenge homophobic and heteronormative social relations in contemporary societies As such the book considers how the Court's interpretation of the Convention might be evolved in the future to better protect lesbian and gay rights and lives

Queer Theory: Law, Culture, Empire Robert Leckey, Kim Brooks, 2010-06-10 Queer Theory Law Culture Empire takes up the instability of the label queer in order to consider what queer theory can bring to an exploration of the confines and openings provided by law culture and empire

Feminist Perspectives on Family Law Alison Diduck, Katherine O'Donovan, 2007-03-12 Examining specific areas of family law from a feminist perspective this book assesses the impact that feminism has had upon family law It is deliberately broad in scope as it takes the view that family law cannot be defined in a traditional way In addition to issues of long standing concern for feminists it explores issues of current legal and political preoccupation such as civil partnerships home sharing reproductive technologies and new initiatives in regulating family practices through criminal law including domestic violence and youth justice

Fleeing

Homophobia Thomas Spijkerboer, 2013-07-18 Each year thousands of lesbian gay bisexual transgender and intersex LGBTI asylum seekers apply for asylum in EU Member States This book considers the position of LGBTI asylum seekers in European asylum law Developing an encompassing approach to the topic the book identifies and analyzes the main legal issues arising in relation to LGBTI people seeking asylum including the underestimation of the relevance of criminalization of sexual orientation as well as the large scale violence against trans people in countries of origin by some European states the requirement to seek State protection against violence even when they originate from countries where sexual orientation or gender identity is criminalized or where the authorities are homophobic the particular hurdles faced during credibility assessment on account of persisting stereotypes and queer families and refugee law The book gives a state of the art overview of law in Europe both at the level of European legislation and at the level of Member State practice While being largely focused on Europe the book also takes into account asylum decisions from Australia New Zealand Canada and the United States and is of relevance internationally offering analysis of issues which are not specific to particular legal systems

Understanding Narrative Identity Through Lesbian and Gay Youth Edmund Coleman-Fountain, 2014-07-23 This book contests the idea that lesbian and gay categories are disappearing and that sexuality is becoming fluid by showing how young people use them in a world in which heterosexuality is privileged Exploring identity making the book shows how old modernist stories of sexual being entwine with narratives of normality **Banning 'Conversion Therapy'** Ilias

Trispiotis, Craig Purshouse, 2023-11-30 This book looks at why and how states should legally ban LGBTQ conversion therapy Few states have legislated against the practice with many currently considering its legal ban Banning Conversion Therapy brings together leading academics legal and medical practitioners policymakers and activists to illuminate the legislative and non legislative steps that are required to protect individuals from the harms of conversion therapy in different contexts The book considers how best to address this complex and interdisciplinary legal problem which cuts across human rights law criminal law family law and socio legal studies and which represents one of the key contemporary problems of LGBTQ equality and national and international human rights activism Refugees and Rights Mary Crock, 2017-05-15 This

domination flattering to citizens and demeaning for noncitizens In this volume in the MIT Press Essential Knowledge series Kochenov explains the state of citizenship in the modern world Kochenov offers a critical introduction to a subject most often regarded uncritically describing what citizenship is what it entails how it came about and how its role in the world has been changing He examines four key elements of the concept status considering how and why the status of citizenship is extended what function it serves and who is left behind rights particularly the right to live and work in a state duties and what it means to be a good citizen and politics as enacted in the granting and enjoyment of citizenship Citizenship promises to apply the attractive ideas of dignity equality and human worth but to strictly separated groups of individuals Those outside the separation aren't citizens as currently understood and they do not belong Citizenship Kochenov warns is too often a legal tool that justifies violence humiliation and exclusion
