panoramic history of the Western world from the 1970s to the present day from the Cold War to the 2008 financial crisis and wars in the Middle East Empire of Democracy is a superbly informed and riveting historical analysis of our contemporary era Charles S Maier Harvard University Half a century ago at the height of the Cold War and amidst a world economic crisis the Western democracies were forced to undergo a profound transformation Against what some saw as a full scale crisis of democracy with race riots anti Vietnam marches and a wave of worker discontent sowing crisis from one nation to the next a new political economic order was devised and the postwar social contract was torn up and written anew In this epic narrative of the events that have shaped our own times Simon Reid Henry shows how liberal democracy and western history with it was profoundly reimagined when the postwar Golden Age ended As the institutions of liberal rule were reinvented a new generation of politicians emerged Thatcher Reagan Mitterrand Kohl The late twentieth century heyday they oversaw carried the Western democracies triumphantly to victory in the Cold War and into the economic boom of the 1990s But equally it led them into the fiasco of Iraq to the high drama of the financial crisis in 2007 8 and ultimately to the anti liberal surge of our own times The present crisis of liberalism is leading us toward as yet unscripted decades The era we have all been living through is closing out and democracy is turning on its axis once again Brilliantly Reid Henry calls for the salvation of democracy from the choices of its own leaders if it is to survive Samuel Moyn Yale University

**Common Goods** Adrienne Héritier, 2002-05-28 As European countries become more interdependent the provision of common goods increasingly must be organized across national boundaries levels of government and sectors In addition former adversaries in the public and private sectors must learn to collaborate rather than compete These changing paradigms call for new institutional and instrumental arrangements that move beyond existing modes of national governance Offering a unique focus on the emerging role of private actors this volume explores the evolving challenge of governing common goods in an increasingly transnational environment The first systematic analysis of institutional solutions for providing common goods this book shows how hierarchies established over centuries of nation state rule have become obsolete while negotiation and self regulation have grown in importance The contributors explore innovative solutions to the collective action problems countries encounter when clear lines of traditional authority dissolve

and argues that the institutional mediation of globalisation helps us explain why some states seem to possess more capacity to adjust than others Not only must we bring the state back in we must also consider how history culture and collective identities influence the performance of the nation state in the new globalised world order With contributions by Francis Fukuyama Bob Jessop David Marsh John A Hall and John Campbell Georg Sorensen Bjorn Hvinden Rory O'Donnell Peadar Kirby Joseph Ruane Brian Girvin Sean O'Riain Chris McNerny Gert and Gunnar Svendsen Lars Bo Kaspersen and Linda Thorsager Henrik Bang and Michael Boss **Coping With Globalization** Jeffrey A.
