**Government and Housing** Willem van Vliet, Jan van Weesep, 1990-07 This collection of papers was taken from the conference on housing policy and urban innovation held in Amsterdam in 1988 The contributors address such issues as the decentralization of housing privatization of housing deregulation of rental and public housing and housing finance

Reconstructing Urban Regime Theory Mickey Lauria, 1997 Providing a robust conceptual framework urban regime theory has despite its cited shortcomings gained a dominant position in the literature on local politics in addition to its recent use in contexts outside the United States and in comparative cross national research Reconstructing Urban Regime Theory presents a challenging argument for the need to reconceptualize urban regime s middle level abstractions by interpreting it through the higher level abstractions of regulationist theory The contributors propose stronger conceptual linkages between local agents and institutions regime transformation and the restructuring of urban space The blend of empirical and case study provides an excellent mix of theory and practice Handbook of Regional and Urban Economics Peter Nijkamp, E.S.

Mills, P.C. Cheshire, 1986 Fifteen essays in this handbook are divided into four parts Part I surveys basic spatial and spatially related research Part II surveys literature on specific urban markets Part III is devoted to studies of urban development and problems in developing countries Part IV contains papers on specific urban problems and sectors *Routledge Library Editions: Urban Planning* Various, 2021-06-23 The volumes in this set originally published between 1970 and 1998 draw together research by leading academics in the area of urban planning and provide a rigorous examination of related key issues The volumes examine teaching urban markets planning transport planning poverty politics forecasting techniques and an examination of the inner city in Europe and the US whilst also exploring the general principles and practices of planning This set will be of particular interest to students of sociology geography planning and urbanization respectively **APAIS**

**1992: Australian public affairs information service , Social Policy Reform in China** Catherine Jones  
Finer, 2017-11-01 This title was first published in 2003 The People s Republic of China PRC is a timely example of social policy reform in a socialist market economy This important and topical edited collection brings together leading Chinese and Western experts to introduce and integrate policy issues of the PRC into the mainstream of cross national social policy debate Drawing upon comparativist expertise in relevant aspects of social policy the book explores the ways in which the PRC has or has not taken lessons from abroad in key social policy respects and illustrates policy relevant relations between Chinese and Western perspectives The contributors identify those aspects of China s recent social policy reforms that seem the most and least likely to appeal to Western societies The collection therefore represents a substantial advance in two way East West lesson learning in social and public policy Government and Housing Willem van Vliet, Jan van Weesep, 1990-07-01 The contributors to this volume address such issues as the decentralization of housing privatization of housing deregulation of rental and public housing developments in housing finance and current innovations in housing

rehabilitation International in scope each discussion contains expert analysis of policy in countries as diverse as the UK Australia Yugoslavia Israel and the US The papers are taken from the conference on Housing Policy and Urban Innovation Amsterdam 1988 organized under the auspices of the Ad Hoc Committee on Housing and the Built Environment of the International Sociological Association Metropolis 2000 Thomas Angotti, 2018-05-30 Originally published in 1993 Metropolis 2000 analyses 20th century metropolitan development and planning under the economic and environmental conditions of the world's regions Attempts to achieve the physical integration of the city without economic equality have failed The book advances the principle of integrated diversity which emphasises linking neighbourhood planning with a broader vision of the planned metropolis and applies a political economy approach and argues for a new form of pro urban thinking The book argues that the basis for a humane approach to city planning is viewing the metropolis as a beneficial accompaniment to national independence equality and social progress *Globalization and Progressive Economic Policy* Dean Baker, Gerald Epstein, Robert Pollin, 1998-11-05 Prominent economists analyze the impact of the emerging global economy on national sovereignty and standards of living Fractured Cities Brian D. Jacobs, 2003-09-02 Anglo American cities face economic decline social polarisation and racial conflict Their fate is increasingly decided by the global actions of transnational corporations and market forces Community groups find it difficult to gain access to the political system Ethnic minorities strive for empowerment while indebted city governments battle to maintain basic services Such is the urban crisis of the 1990s Fractured Cities describes the political economy of urban change and explores the future of the city

**Constructing a Sense of Place** Haim Yacobi, 2017-05-15 While it is widely recognized that architects and their architecture play a key role in constructing a sense of place the inherent nexus between an architectural ideology and the production of national space and place has so far been neglected Focusing on the Zionist ideology this book brings together practising architects and academics to critically examine the role of architects architecture and spatial practices as mediators between national ideology and the politicization of space The book first of all sets out the wider context of theoretical debates concerning the role of architecture in the process of constructing a sense of place then divides into six main sections The book not only provides an innovative new perspective on how the Israeli state had developed but also sheds light on how architecture shapes national identity in any post colonial and settler state *Administration*, 1993

*Constructing the Segregated City* Kevin Fox Gotham, 1997 The purpose of this dissertation is to identify key actors important decisions and social processes that have created contemporary patterns of poverty and racial residential segregation in the Kansas City metropolitan area In recent years the Kansas City metropolitan area has been identified by scholars as one of the nation's hypersegregated metropolitan areas due to the high degree of segregation in housing patterns on a range of indices Using a racial political economy perspective and the urban case study method I examine how the production distribution and consumption of housing has been instrumental in creating and reinforcing racial residential

segregation and uneven development I situate the historical origins development and social and spatial consequences of racial residential segregation in large scale processes of urban change and development including the shift from a compact city pre 1880 to a fragmented city 1880 World War II and the transition to a multicentered metropolis World War II to the present Specifically I examine the long term segregative effects of federal home mortgage programs public housing programs urban redevelopment and renewal programs and large scale highway building in the Kansas City metropolitan area I draw upon archival data census data public documents and housing reports and interviews with local residents and civil rights activists to explore the extent to which these state housing policies and subsidies and the actions of local political and economic actors have contributed the development of segregated housing patterns suburbanization of residences and the concentration of minority poverty

**Democracy, Participation and Contestation** Emmanuelle Avril,Johann N Neem,2014-08-07 The establishment of democracy on both sides of the Atlantic has not been a smooth evolution towards an idealized presumed endpoint Far from it democratization has been marked by setbacks and victories a process often referred to as contested democracy In view of recent mobilizations such as the Arab Spring and the Occupy movement in which new technologies have played a key role there is a need for a renewed analysis of the long term evolution of US and UK political systems Using new areas of research this book argues that the ideals and the practices of Anglo American democracy can be best understood by studying diverse forms of participation which go beyond classical expressions of contestation and dissent such as voting The authors analyze political parties social movements communications and social media governance cultural diversity identity politics public private actors and social cohesion to illustrate how the structure and context of popular participation play a significant role in whether and when citizens efforts have any meaningful impact on those who exercise political power In doing so the authors take crucial steps towards understanding how a vigorous public sphere and popular sovereignty can be made to work in today s global environment This book will be of interest to students and scholars of political science British and US history democracy political participation governance social movements and politics
