bidders went online to the world's largest flea market in droves ready to spend cash on everything from garden gnomes to Mercedes convertibles. Among them were art collectors willing to spend big money on unseen paintings hoping to buy valuable pieces of art at below market prices. EBay also attracted the occasional con artist unable to resist the temptation of abusing a system that prided itself on being based on trust. Kenneth Walton, once a lawyer bound by the ethics of his profession to uphold the law, was seduced by just such a con artist and eventually became one himself. Ripped from the headlines of the New York Times, the first newspaper to break the story, Fake describes Walton's innocent beginnings as an online art trading hobbyist and details the downward spiral of greed that ultimately led to his federal felony conviction. What started out as a satisfying exercise in reselling thrift store paintings for a profit in order to pay back student loans and mounting credit card debt soon became a fierce addiction to the subtle deception of luring unsuspecting bidders into overpaying for paintings of questionable origins. In a landscape peopled with colorful eccentrics hoping to score museum quality paintings at bargain prices, Walton entered into a partnership with Ken Fetterman, an unslick yet somehow very effective con man. Over the course of eighteen months they managed to take in hundreds of thousands of dollars by selling forged paintings and bidding on their own auctions to drive up the prices. When their deception was discovered and made international headlines, Walton found himself stalked by reporters and federal agents while Fetterman went on the lam, sparking a nationwide FBI manhunt. His elaborate game of cat and mouse lasted nearly three years until the feds caught up with him after a routine traffic violation and brought him to justice. In this sensational story of the seductive power of greed, Kenneth Walton breaks his silence for the first time and in his own words details the international scandal that forever changed the way eBay does business.

Dunn's book delivers Publishers Weekly's beloved writer/comedian expands on his popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of his Bad With Money podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then she asked how much money was in their bank accounts. People were aghast. That's a very personal question, they insisted. And therein lies the problem, Dunn argues: that our inability to speak honestly about money is our 1st barrier to understanding it, leading us to feel alone, ashamed, and anxious, which in turn makes us feel even more overwhelmed by it. In Bad With Money, he reveals the legitimate systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many

signposts on the road to getting our financial sh t together like how to choose an insurance plan or buy a car sign up for a credit card or take out student loans He speaks directly to her audience offering advice on how to make that freelancelife work for you navigate money while you date and budget without becoming a Nobel winning economist overnight Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn who weaves his own stories with the perspectives of various comedians artists students and more arguing that even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers we can all start taking control of our financial futures
