Gomery's Blinders And Canadian Federalism Governance Series:

Gomery's Blinders and Canadian Federalism Ruth Hubbard, Gilles Paquet, 2007-02-08 In 2004 Paul Martin asked Justice John Gomery to lead a public inquiry into potential misspending in the federal Sponsorship Program a relatively small investment of taxpayers money to try to convince Quebecers of the benefits of Canadian federalism in the aftermath of the 1995 referendum on Quebec separation The Gomery inquiry chose to focus exclusively on the sordid details of the money laundering and paid no attention to the deeper causes and sources of the problem the dysfunctions of an existing centralized governing apparatus that is tearing the fabric of the country apart and the collusion of centralizing groups defending the status quo Published in English *Deep Cultural Diversity* Gilles Paquet, 2008-04-22 Political commentator and public policy analyst Gilles Paquet examines the benefits and drawbacks of Canada's multiculturalism policy He rejects the current policy which perpetuates difference and articulates a model for Canadian transculturalism a more fluid understanding of multiculturalism based on the philosophy of cosmopolitanism which would strengthen moral contracts and encourage the social engagement of all Canadians Published in English *Revolution or Renaissance* D. Paul Schafer, 2008-04-29 In *Revolution or Renaissance* D Paul Schafer subjects two of the most powerful forces in the world economics and culture to a detailed and historically sensitive analysis He argues that the economic age has produced a great deal of wealth and unleashed tremendous productive power however it is not capable of coming to grips with the problems threatening human and non human life on this planet After tracing the evolution of the economic age from the publication of Adam Smith's *The Wealth of Nations* in 1776 to the present he turns his attention to culture examining it both as a concept and as a reality What emerges is a portrait of the world system of the future where culture is the central focus of development According to Schafer making the transition from an economic age to a cultural age is imperative if global harmony environmental sustainability economic viability and human well being are to be achieved Published in English **The Case for**

Decentralized Federalism Ruth Hubbard, Gilles Paquet, 2011-01-17 The Case for Decentralized Federalism and its sister volume The Case for Centralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism The Case for Decentralized Federalism brings together experts who believe decentralized federalism is the optimal arrangement for governing the contextual diversity and cultural pluralism in Canada Using different approaches they argue that by dividing the work of public governance among different levels of government it is easier to address the needs and aspirations of the diverse groups that make up Canada Published in English

The Case for Centralized Federalism Gordon DiGiacomo, Maryantonett Flumian, 2010-08-21 The Case for Centralized Federalism and its sister volume The Case for Decentralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments

needed to articulate the case for a centralized or a decentralized Canadian federalism In The Case for Centralized Federalism an array of experts condemns the federal government's submissiveness in its dealings with the provinces and calls for a renewed federal assertiveness They argue that the federal government is best placed to create effective policy support democracy and respond to issues of national importance Published in English **Searching for Leadership** Patrice Dutil,2008-08-02 Although the subject of leadership is a hot topic it has never attracted much attention in the public sector Searching for Leadership is the first book to examine the evolving role and leadership of the highest ranking public servant in Ottawa or in any of Canada's Provinces and Territories the Secretary to Cabinet or the Clerk Arguing that the leadership role of the Secretary to Cabinet must be appreciated and understood in light of modern management practices and the centralization of administrative practices the contributors to this volume present a mixture of approaches to the position literature reviews structural approaches and biographical case studies of influential Secretaries to the Cabinet Analyzing the role of Secretaries to the Cabinet in Ottawa as well as in Alberta Saskatchewan Quebec and Ontario the contributors detail the roles key functions and impact of these highly influential public servants highlighting the ways in which the leadership skills of Secretaries to the Cabinet have changed and responded to change An important contribution to understanding Canadian governance and public management Searching for Leadership is essential reading for scholars and students in political science history public administration and management as well as public servants **Intelligent Governance** Gilles Paquet,Christopher Wilson,2016-06-12 Striking the right fit between resources processes and outcomes in complex environments where different groups have something to contribute towards joint outcomes even though they partake in joint operations in the pursuit of their own objectives This is what intelligent governance is all about It is the practical application of an evolving worldview that is a less conflictive more intelligent more cooperative and a wiser mode of human coordination This short book proposes some guideposts for intelligent governance It does not put forward a rigid blueprint or a recipe that could mechanically and blindly be followed but a prototype for a process of inquiry seeking to help organizations find a way forward through innovation and value adding some general indications about the most toxic pitfalls likely to materialize mental prisons lack of mindfulness etc and comments about the most promising opportunities or initiatives likely to nudge the coordinating inquiries into successful directions **Building Bridges** Claude Rocan,2022-08-10 The case studies contained in this book show real life examples of complex problems being addressed through collaboration The problems confronting modern society are complex and do not lend themselves to simple solutions or linear decision making They require the involvement of many stakeholders This is often brought about by networks which bring together a multitude of players in the search for solutions to public policy issues This can be challenging as differing viewpoints and personalities and often conflicting interests need to be acknowledged and reconciled Yet without the involvement of all interested parties solutions that emerge will likely be partial distorted and short lived The cases span a broad spectrum including issues of

poverty reduction criminal gang reduction environmental reparation economic development for First Nations building age friendly communities and co management of fisheries *Crippling Epistemologies and Governance Failures* Gilles

Paquet,2009-04-18 In *Crippling Epistemologies and Governance Failures* Gilles Paquet criticizes the prevailing practices of the social sciences on the basis of their inadequate concepts of knowledge evidence and inquiry concepts he claims have become methodological mental prisons Paquet describes the prevailing policy development process in Canada in terms of its weak information infrastructure poor accountability and inflexible organization design In contrast he suggests that social science and public policy should promote forms of serious play that would allow organizations to experiment with new structures Paquet engages with numerous foundationalist programs in the social sciences in order to show their inadequacy and suggests important and unexplored directions in policy areas as diverse as education science health intergovernmental and foreign policy He closes the work with a plea for experimentalism in academic research policy development and organization design Published in English [The Tainted-Blood Tragedy in Canada](#) Gilles Paquet,Roger A.

Perrault,2022-08-10 Canada experienced a tainted blood crisis in the latter part of the 20th century It left a number of Canadians dead and a large number incapacitated or seriously handicapped It has been established by the court that there was no criminal negligence at the source of this event but there were most certainly governance failures This latter aspect of the tragedy has not received the attention it deserves These governance failures have transformed the crisis into a tragedy and the tragedy generated a miscarriage of justice if justice delayed for decades may be regarded as justice denied This book has been written by a specialist on governance and a medical doctor and scientist who managed the Canadian blood transfusion system for 17 years It challenges the conventional wisdom that underpinned the four ill founded accusations against a few persons levied by interest groups the media and the Office of the Solicitor General of Ontario and it argues that the tragedy was the result of a cascade of pathologies of governance A systemic reconstruction of the tragedy is proposed the administrative processes that we argue were responsible for the pathologies of governance are exposed and suggestions are made to neutralize such malefits in the future The full text of the judgment and reasons provided by Justice Benotto when one of the ill founded accusations was brought to court is enclosed This led the Crown to drop the other three ill founded accusations A postface underlines the lack of critical thinking that has allowed such a tragedy to follow its course
