

End of School Letter to Students

I'm glad I was your teacher,
I've come to love you so.
I can't believe the end is here,
I hate to see you go.
Remember all the fun we had
in all the things we did.
But most of all, remember...
You're a VERY special kid!

Good Bye Letter To Kindergarteners:

How Many Letters Are In Goodbye? Yvonne Cassidy, 2016-03-08 Rhea Farrell carries the scars of a childhood accident in which she lost her arm But she also carries scars from the loss of her mother her father s drinking and her confusion around her sexuality Running away to New York she turns to her mother through letters **Trauma-Proofing Your Kids** Peter A. Levine, Ph.D., Maggie Kline, 2008-03-04 Understand the different types of upsets and traumas your child may experience and learn how to teach them how to be resilient confident and even joyful The number of anxious depressed hyperactive and withdrawn children is staggering and still growing Millions have experienced bullying violence real or in the media abuse or sexual molestation Many other kids have been traumatized from more ordinary ordeals such as terrifying medical procedures accidents loss and divorce Trauma Proofing Your Kids sends a lifeline to parents who wonder how they can help their worried and troubled children now It offers simple but powerful tools to keep children safe from danger and to help them bounce back after feeling scared and overwhelmed No longer will kids have to be passive prey to predators or the innocent victims of life s circumstances In addition to arming parents with priceless protective strategies best selling authors Dr Peter A Levine and Maggie Kline offer an antidote to trauma and a recipe for creating resilient kids no matter what misfortune has besieged them Trauma Proofing Your Kids is a treasure trove of simple to follow stress busting boundary setting sensory motor awareness activities that counteract trauma s effect on a child s body mind and spirit Including a chapter on how to navigate the inevitable difficulties that arise during the various ages and stages of development this ground breaking book simplifies an often mystifying and complex subject empowering parents to raise truly confident and joyful kids despite stressful and turbulent times **Helping Bereaved Children, Third Edition** Nancy Boyd Webb, 2011-03-18 This acclaimed work describes a range of counseling and therapy approaches for children who have experienced loss Practitioners and students are given practical strategies for helping preschoolers through adolescents cope with different forms of bereavement including death in the family school and community Grounded in research on child therapy bereavement trauma and child development the volume includes rich case presentations and clearly explains the principles that guide interventions Eleven reproducible assessment tools and handouts can also be downloaded and printed in a convenient 8 1/2 x 11 size *Classroom Routines that Really Work for PreK and Kindergarten* Kathleen Hayes, Renee Creange, 2001 Help children learn classroom routines Filled with ideas for introducing and managing essential early childhood routines and activities that foster independence and build community **Critiquing Social and Emotional Learning** Clio Stearns, 2019-03-08 Social and Emotional Learning SEL has been steadily gaining traction in education but little attention has been paid to its underlying assumptions In Critiquing Social and Emotional Learning Psychodynamic and Cultural Perspectives Clio Stearns draws on qualitative classroom observations teacher interviews and analysis of prominent SEL program materials to offer a critique of SEL as a codified phenomenon Stearns questions undergirding presumptions

about children teachers and SEL s interplay with cultural and educational trends Claiming that SEL participates in cultural demands for hegemonic positivity Stearns illustrates the dangers and undesirable demands of this impossible curricular regime In particular Stearns highlights how closeness and understanding in the classroom are repeatedly circumvented and how normative and necessary parts of life like negative affect and interpersonal conflict are disregarded In Stearns s view the educational community should not consider children s social and emotional worlds as fair domain for mastery or learning Instead we should consider social and emotional education as something without a predetermined endpoint requiring the joint and ongoing participation of teachers and students
