Good Choice! Tony Stead, 2008-10-28 For those of us who treasure memories of a childhood spent curled up with favorite books it may be shocking to realize that reading is a chore for many of our students In recent years the increased class time spent on reading instruction geared toward measurable performance from tests to book reports means fewer children have the opportunity to discover reading for pleasure or to research topics that interest them If we want children to become truly engaged readers we must set aside time every day for them to independently select read and respond Of course just providing time and a variety of reading materials isn't adequate to ensure that students achieve the independence they need to become lifelong readers Students need guidance on selecting materials at an appropriate level they need practice in the habits of readers and they need the social reinforcement of sharing ideas about their reading with peers In *Good Choice* noted author and literacy specialist Tony Stead outlines the components that foster successful independent reading in grades K 6 He examines practices that establish independent reading and borrowing routines provide adequate resources for independent reading support children in selecting a wide range of appropriate texts offer opportunities for children to respond to their reading With examples appropriate to emergent readers in grades K 2 as well as more seasoned readers in grades 3 6 Tony provides a comprehensive plan for integrating independent reading throughout the day He offers systems for organizing the class library and checking books in and out lessons on book selection and responding to text advice on supporting children and parents in home reading guidance on conferring with students and an array of helpful appendix materials including graphic organizers questionnaires assessment and monitoring rubrics Research shows that children who have the opportunity to read independently not only become more literate adults they also in fact perform better on state tests and other reading assessments *Good Choice* provides everything you need to create classrooms where students can fulfill their reading potential now and for the future

Intensifying Classroom Routines in Reading and Writing Programs Michael P. Ford, 2017-06-15 Three common routines are seen in almost every primary language arts program: morning messages, shared readings, and word walls. These routines should be integrated to support the total language arts program, but are teachers of grades K-2 getting the most bang for their buck out of these activities? Morning messages can become very routinized and repeat the same experiences over and over again. Shared readings are sometimes conducted with little variation in spite of changing demands from the texts being used and changing needs in the learners with whom they are being used. Word walls might be put up with some attention early in the year and remain virtually unchanged as the year moves forward. *Intensifying Classroom Routines in Reading and Writing Programs* focuses on how teachers can get more instructional mileage out of these three common classroom routines. Author Michael P. Ford lays out step-by-step, day-by-day plans to put those three key routines on a cycle that changes as students

move through developmental phases This resource helps teachers plan for emergent and early readers and writers It also looks at how teachers can assist students as they move through critical areas including concepts of print alphabetic knowledge phonological awareness sound symbol relationships high frequency words structural analysis context clues comprehension strategies and composition strategies With these intensified routines in place students will clearly see connections between reading and writing
