theories people deserve credit in specific terms For instance they deserve specific incomes jobs punishments relationships or reputations The author s argument against desert rests on three claims There is no adequate theory of what desert is Even if there were an adequate theory of what desert is nothing grounds justifies desert Even if there were an adequate theory of what desert is and something were to ground it there is no plausible account of what people deserve Desert Collapses will be of interest to researchers and advanced students working in ethics and political philosophy *Congressional Record* United States.
