Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education Haas, Leslie, Tussey, Jill, 2021-01-15. The idea of storytelling goes beyond the borders of language, culture, or traditional education and has historically been a tie that bonds families, communities, and nations. Digital storytelling offers opportunities for authentic academic and non-academic literacy learning across a multitude of genres. It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education. As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive, the connections between digital storytelling and disciplinary literacy warrant considered exploration. *Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education* develops a conceptual framework around pedagogical connections to digital storytelling within K-12 disciplinary literacy practices. This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels. Covering topics that include immersive storytelling, multiliteracies, social justice, and pedagogical storytelling, it is intended for stakeholders interested in innovative K-12 disciplinary literacy skill development research and practices, including but not limited to curriculum directors, education faculty, educational researchers, instructional facilitators, literacy professionals, teachers, pre-service teachers, professional development coordinators, teacher preparation programs, and students.

Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2017-11-03 Inviting multiple ways of critically engaging with literature, this text offers a fresh perspective on how to integrate children's literature into and across the curriculum in effective, purposeful ways. Structured around three mantras that build on each other: Enjoy, Dig deeply, Take action, the book is rich with real examples of teachers implementing critical pedagogy. The materials and practical strategies focus on issues that impact children's lives: building from students' personal experiences and cultural knowledge to using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Written for teachers and teacher educators, each chapter opens with three elements that are closely linked: classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter and connecting theory with practice; and related research on the topics and their importance for curriculum. Other chapter features include key issues in implementation, suggestions for working with linguistically and culturally diverse students, alternative approaches to assessment, and suggestions for further reading. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, and ideas for professional development.

Changes in the Second Edition: Voices from the Field vignettes include examples from inspiring educators who use trade books to promote critical thinking and diversity. Updated chapters include information on new technology and electronic resources. New references in the principles sections and new resources for further study. New children's books added throughout the chapters as well as to the companion website.
