Governing Codes Gender Metaphor And Political Identity Kristina Horn Sheeler:

Governing Codes Karrin Vasby Anderson, Kristina Horn Sheeler, 2005 Familiar narratives and simplistic stereotypes frame the representation of women in U S politics Pervasive containment rhetorics such as the distinction between women as mothers and caregivers and men as rational thinkers create unique hurdles for any woman seeking public office While these governing codes generally act to constrain female political power they can also be harnessed as a resource depending on the particular circumstances e g party affiliation geographic location and personal style One of these governing codes the metaphor is an especially powerful tool in politics today particularly for women By examining the political careers of four of the most prominent and influential women in contemporary U S politics_ Democrats Ann Richards and Hillary Rodham Clinton and Republicans Christine Todd Whitman and Elizabeth Dole_ Karrin Vasby Anderson and Kristina Horn Sheeler illustrate how metaphors in public discourse may be both familiar narratives to embrace and boundaries to overturn

Governing Codes Karrin Vasby Anderson, Kristina K. Horn Sheeler, 2005-01-01 Governing Codes examines the political identity of four contemporary U S political figures Democrats Ann Richards and Hillary Rodham Clinton and Republicans Christine Todd Whitman and Elizabeth Dole illustrating how metaphor plays a central role in the construction of public identity in U S politics Anderson and Sheeler analyze how familiar narratives and stereotypes about women and power often govern media portrayals of public women containing and constraining them but also how these women mine the metaphorical landscape for rhetorical strategies they can use to accomplish their pragmatic goals

Woman President Kristina Horn Sheeler, Karrin Vasby Anderson, 2013-08-08 What elements of American political and rhetorical culture block the imagining and thus the electing of a woman as president Examining both major party and third party campaigns by women including the 2008 campaigns of Hillary Clinton and Sarah Palin the authors of Woman President Confronting Postfeminist Political Culture identify the factors that limit electoral possibilities for women Pundits have been predicting women s political ascendancy for years And yet although the 2008 presidential campaign featured Hillary Clinton as an early frontrunner for the Democratic presidential nomination and Sarah Palin as the first female Republican vice presidential nominee no woman has yet held either of the top two offices The reasons for this are complex and varied but the authors assert that the question certainly encompasses more than the shortcomings of women candidates or the demands of the particular political moment Instead the authors identify a pernicious backlash against women presidential candidates one that is expressed in both political and popular culture In Woman President Confronting Postfeminist Political Culture Kristina Horn Sheeler and Karrin Vasby Anderson provide a discussion of US presidentiality as a unique rhetorical role Within that framework they review women s historical and contemporary presidential bids placing special emphasis on the 2008 campaign They also consider how presidentiality is framed in candidate oratory campaign journalism film and television digital media and political parody

Ackerman, 2018-09-07 In order to understand the motivations for and implications of Hillary Clinton's historic run for the White House and her subsequent defeat the authors explore sexism and gender bias in U.S. political and social culture While there is some indication that overt sexism toward women in politics is declining whether this is true for women who run for the highest office in American politics remains relatively unknown Hillary Clinton's historic run as the 2016 Democratic nominee however allows scholars and journalists to contextualize decades of scholarship on sex gender and the American presidency In Sex and Gender in the 2016 Presidential Election the authors all experts on gender in politics analyze the nature of gender in public opinion media coverage social media and culture during the 2016 presidential election They assess whether conventional expectations and theories hold up in today's sociopolitical climate Moreover they consider how Clinton's foray into relatively uncharted territory might redirect the political field and its implications for women with political ambitions going forward

Maryland Politics and Political Communication, 1950-2005 Theodore F. Sheckels, 2006-08-19 Maryland Politics and Political Communication 1950 2005 is not a survey of all that occurred between 1950 and 2005 Rather this book focuses on a set of interesting political events in which communication is a very important variable These events be they elections or episodes of governance are also arguably the most dramatic ones during the period It begins with an examination of George Wallace s 1964 and 1972 campaigns in the state s Democratic presidential primary considers William Donald Schaefer s flamboyant communication strategies as Baltimore mayor and the vicious 1986 U S Senate campaign between Democrat Barbara Mikulski and Linda Chavez and runs through the 2002 gubernatorial race between Kathleen Kennedy Townsend and Robert L Ehrlich Sheckels highlights the similarities and differences between political communication at state and national levels and looks forward to questions and scenarios that may emerge in future elections *On the Frontier of Science* Leah Ceccarelli, 2013-11-01 The frontier of science is a metaphor that has become ubiquitous in American rhetoric from its first appearance in the public address of early twentieth century American intellectuals and politicians who aligned a mythic national identity with scientific research to its more recent use in scientists arguments in favor of increased research funding Here Leah Ceccarelli explores what is selected and what is deflected when this metaphor is deployed its effects on those who use it and what rhetorical moves are made by those who try to counter its appeal In her research Ceccarelli discovers that

the frontier of science evokes a scientist who is typically male a risk taker an adventurous loner someone separated from a public that both envies and distrusts him with a manifest destiny to penetrate the unknown It conjures a competitive desire to claim the riches of a new territory before others can do the same Closely reading the public address of scientists and politicians and the reception of their audiences this book shows how the frontier of science metaphor constrains American speakers helping to guide the ends of scientific research in particular ways and sometimes blocking scientists from attaining the very goals they set out to achieve
