Growing Livelihoods Community Development Earthscan:

Growing Livelihoods Rhonda Phillips,Chris Wharton,2015-11-19 Community planning is starting to include a broader food systems focus spanning topics such as nutrition and health outcomes sustainable farming practices economic and social implications of local food production distribution and consumption Together these issues are a driving force for the passions of those seeking positive change in their communities through healthy food The purpose of this book is to explore how and where local food and farms as part of a local or regional food system can positively impact both economic development and overall well being of communities Across North America there are good examples of the ways in which innovative local food systems provide opportunities for increasing job growth and entrepreneurship retaining local farmers on their land while nourishing their community and providing communities places to congregate bond and become closer knit Six such examples are highlighted each illustrating a novel model offering unique contributions to community economic health and well being These important cases offer practitioners advocates academics and students insight into how applications can be built or studied in their own communities

Growing Livelihoods Rhonda Phillips,Chris Wharton,2015-11-19 Community planning is starting to include a broader food systems focus spanning topics such as nutrition and health outcomes sustainable farming practices economic and social implications of local food production distribution and consumption Together these issues are a driving force for the passions of those seeking positive change in their communities through healthy food The purpose of this book is to explore how and where local food and farms as part of a local or regional food system can positively impact both economic development and overall well being of communities Across North America there are good examples of the ways in which innovative local food systems provide opportunities for increasing job growth and entrepreneurship retaining local farmers on their land while nourishing their community and providing communities places to congregate bond and become closer knit Six such examples are highlighted each illustrating a novel model offering unique contributions to community economic health and well being These important cases offer practitioners advocates academics and students insight into how applications can be built or studied in their own communities

Natural Resources, Tourism and Community Livelihoods in Southern Africa Moren T. Stone,Monkgogi Lenao,Naomi Moswete,2019-11-19 This book examines the connections between natural resources tourism and community livelihood practices in Southern Africa highlighting the successes and constraints experienced over the last 50 years Questioning how natural resources tourism and community livelihoods relations can positively contribute towards development efforts this book adopts an interdisciplinary approach to understand socio ecological systems that characterize the dynamics for sustainable development It explores the history of conservation and natural resource management in Southern Africa and traces the development and growth of nature based tourism Boasting a wide range of tourism landscapes including national parks wetlands forests and oceans the book draws on case studies from a variety of Southern African countries including Botswana Namibia and South Africa and

considers the political challenges for implementing policies and practices Furthermore it analyses broader issues such as the impact of climate change human wildlife co existence and resulting conflicts poor access to funding and poverty in local communities The book argues that the links between conservation and livelihoods can be best understood by considering the different approaches to reconciling the demands of conservation and livelihoods that have evolved over the past decades Containing contributions from natural and social sciences the book provides guidance for practitioners and policymakers to continue to shape policies and practices that are in line with the key tenets of sustainable development It will also be of great interest to students and scholars researching Southern Africa sustainable tourism and conservation

Theorising the Practice of Community Development Peter Westoby, 2016-02-17 Based on 25 years of community development practice six of which have been lived in South Africa Peter Westoby's ground breaking monograph moves away from dominant normative accounts of community development to provide an appreciative and critical analysis of concrete examples of community development theory and practice By examining community development stories as experienced on the ground Westoby is able to show how the poor are organising themselves using various forms of community development as well as demonstrating how the state and non state actors are attempting to organise engage or accompany the poor through community development The book also breaks new ground in theorising the practice of community development drawing inductively from the stories analysed The diversity of South African contexts and the proliferation of different kinds of community practice make this a hugely difficult task Despite this Westoby argues it is one worth undertaking given the seriousness of the challenges facing the poor and progressive social change agents within South Africa In this undertaking Westoby draws upon a unique analytical framework to help illuminate current community development policy and programme challenges along with practice dilemmas and wisdom

Rich Pictures Simon Bell, Tessa Berg, Stephen Morse, 2016-03-17 Rich Pictures focuses on the value of developing visual narratives Rich Pictures as an important component and starting point for community participation A key device for the community to share ideas and perspectives on current and potential future situations Rich Pictures provide a shared space for members to set out ideas and negotiate While Rich Pictures are widely and globally used this is the first book discussing their use and how and when to use this technique for maximum participatory value A valuable read for community engagement professionals planners politicians and members of affected communities Rich Pictures is richly illustrated with examples and authors testimonials

The Elgar Companion to Development Studies David Clark, 2006 If handbooks can be inspiring this is it Like a true companion it takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable

Marilyn Strathern University of Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Teye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman

An Introduction to Community

Development Rhonda Phillips, Robert Pittman, 2014-11-26 Beginning with the foundations of community development An Introduction to Community Development offers a comprehensive and practical approach to planning for communities Road tested in the authors own teaching and through the training they provide for practicing planners it enables students to begin making connections between academic study and practical know how from both private and public sector contexts An Introduction to Community Development shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy Most importantly the book is strongly focused on outcomes encouraging students to ask what is best practice when it comes to planning for communities and how do we accurately measure the results of planning practice This newly revised and updated edition includes increased coverage of sustainability issues discussion of localism and its relation to community development quality of life community well being and public health considerations and content on local food systems Each chapter provides a range of reading materials for the student

supplemented with text boxes a chapter outline keywords and reference lists and new skills based exercises at the end of each chapter to help students turn their learning into action making this the most user friendly text for community development now available *Urban Livelihoods* Tony Lloyd-Jones, Carole Rakodi, 2014-10-14 One of the most promising approaches to poverty reduction in developing countries is to encourage sustainable livelihoods for the poor This takes account of their opportunities and assets and the sources of their vulnerability Based on recent and extensive research this volume thoroughly assesses the value of the livelihoods approach to urban poverty The book reviews the situation and strategies of the urban poor and identifies the policies and practical programmes that work best Lasting improvements depend not just on economic development but on political commitment and structures that are responsive to the claims and needs of different groups of poor people Protected Areas, Sustainable Tourism and Community Livelihood Linkages Moren Stone, Lesego Stone, Gyan Nyaupane, 2024-10-11 The book uses a multi disciplinary approach to address lessons learned and challenges encountered over the years in different ecological economic political and cultural contexts Protected areas were originally established as recreational spaces and to protect some components of nature however today they are also expected to provide an increasing range of benefits to an array of people Protected areas no longer simply protect but they also provide ecosystem services and facilitate poverty reduction via local development ecotourism and sustainable resource use Integrating tourism and conservation with existing local historical socio economic and institutional landscapes is associated with the promotion of local community participation in resource management The book adopts an interdisciplinary approach to understand social ecological systems that explain the relationship between protected areas tourism and community livelihoods linkages The book provides a platform for dialogue to develop a better understanding of the complex relationships between protected areas tourism and community livelihoods linkages Due to the role tourism plays in poverty alleviation conservation empowerment and addressing other environmental and social challenges the book also connects tourism with the UN Sustainable Development Goals This book will be of great interest to students scholars and policymakers of tourism conservation natural resource management sustainable development as well as professionals and policymakers involved in conservation policy The chapters in this book were originally published as a special issue of Journal of Sustainable Tourism **The Placemaker's Guide to Building Community** Nabeel Hamdi, 2010 From the author of Small Change comes this engaging guide to placemaking packed with practical skills and tools that architects planners urban designers and other built environment specialists need in order to engage effectively with development work in any context Drawing on four decades of practical and teaching experience the author offers fresh insight into the complexities faced by practitioners when working to improve the communities lives and livelihoods of people the world over The book shows how these complexities are a context for rather than a barrier to creative work The book also critiques the single vision top down approach to design and planning Using examples of successful professional practice across Europe the US Africa Latin

America and post tsunami Asia the author demonstrates how good policy can derive from good practices when reasoned backwards as well as how plans can emerge in practice without a preponderance of planning Reasoning backwards is shown to be a more effective and inclusive way of planning forwards with significant improvements to the quality of process and place The book also offers a variety of methods and tools for analyzing the issues engaging with communities and other stakeholders for design and settlement planning and for improving the skills of all involved in placemaking Ultimately the book serves as an inspiring guide and a distillation of decades of practical wisdom and experience The resulting practical handbook is for all those involved in doing learning and teaching placemaking and urban development world wide publisher

The State, Non-State Organizations and Livelihood Outcomes in Sub-Saharan Africa Roland Azibo Balgah, Emmanuel Yenshu Vubo, 2024-02-06 The discussion on the role of the state and non state actors in the improvement of livelihoods in Sub Saharan Africa SSA where economic and social development is slowest has been characterized by a disjoint between theory and empirical research This volume sets out to revisit this question by examining the place of the two types of actors in the development process and the increasing influence of public private partnerships in livelihood outcomes The book combines theoretical reflections and empirical studies on a wide variety of initiatives in several domains that seek to improve wellbeing and livelihoods with a focus on the Sub Saharan country of Cameroon The book will provide insights on an area which has been both neglected with the rise of neo liberalism and also revived by the recent introduction of the global development goals

The Remake of a State: Post-conflict Challenges and State Building in Nepal Bishnu Raj Upreti, Sagar Raj Sharma, Kailash Nath Pyakuryal, Safal Ghimire, 2010-06-01 Contributed articles

The Earthscan Reader in Environment, Development and Rural Livelihoods Samantha Jones, Grace Carswell, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company

Sustainable Tourism & the Millennium Development Goals Kelly S. Bricker, Rosemary Black, Stuart Cottrell, 2013 Endorsed by The International Ecotourism Society Sustainable Tourism The Millennium Development Goals Effecting Positive Change demonstrates how ecotourism and sustainable tourism can assist in supporting and meeting the goals set forward by the Millennium Development Goals MDG and how it can foster a global partnership for development The text discusses how ecotourism and sustainable tourism can assist in supporting and meeting the MDG by drawing on case studies and examples The final summary chapter discusses how ecotourism and sustainable tourism can assist in supporting and meeting the MDG by 2015 and identifies the challenges and goals that need to be considered in the future In this edition you will find Historical perspective of the development of ecotourism and sustainable tourism The Millennium Development Goals defined Overview of how ecotourism and sustainable tourism can assist in meeting the goals of the MDG Engaging case studies and examples to reinforce the concept

The Handbook of Community Practice Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013 Written by some of the most influential scholars in the field this Handbook covers community development organizing planning and social change as well as key issues fields of practice and global

approaches **Living on the Edge** Susan Snyman, Kelly S. Bricker, 2021-05-06 Tourism has an essential role in terms of contributing to the financial sustainability of protected areas. In addition, through effective and efficient benefit sharing, tourism can positively impact numerous stakeholders within and beyond the protected area. *Living on the Edge: Benefit Sharing from Protected Area Tourism* highlights the complexity of benefit sharing, the importance of identifying all relevant stakeholders, the challenges of ensuring equity and sustainability, and the critical importance of good governance. The evolution of benefit sharing mechanisms over time also emphasizes a continuing need to evolve and adapt to each unique situation, as much evidence indicates that little has changed for those living on the edge. Although this book focuses on benefit sharing from protected area tourism, it is essential to acknowledge that along with these benefits are costs associated with tourism, including possible increased local prices, loss of access to land, human-wildlife conflict, and other related costs. The contributing authors agree that benefit sharing must include good governance, accountability, equity, transparency, a broad reach of stakeholder engagement, and a robust combination of tangible and intangible benefits, with recognition that benefit sharing systems need to be adaptive and evolve as needed according to the relevant situation. The chapters in this book were originally published as a special issue of the *Journal of Sustainable Tourism*. *Disposable Cities* Garth Andrew Myers, 2017-03-02 Based on in-depth fieldwork in three cities—Dar es Salaam, Zanzibar, and Lusaka—this book provides a critical analysis of the United Nations Sustainable Cities Program in Africa. SCP Focusing on the SCP's policies for solid waste management, which was identified as the top priority problem by the SCP, the book examines the success of these pilot schemes and the SCP's record in building new relationships between people and government. It argues that the SCP has operated in a political vacuum without recognition of the long and problematic histories and cultural politics of urban environmental governance in Eastern and Southern Africa. This book brings these cultural and political histories to the fore in its examination of the contemporary dynamics. In doing so, it not only provides an insightful analysis of the policies and outcomes for the SCP but also puts forward a historically grounded critique of neoliberalism, good governance, and sustainable development discourses. **Growing Crops and Community** Kate Elizabeth Casale, 2005 **Recreational Hunting, Conservation and Rural Livelihoods** Barney Dickson, Jonathan Hutton, William A. Adams, 2009-01-22 Recreational hunting has long been a controversial issue. Is it a threat to biodiversity, or can it be a tool for conservation, giving value to species and habitats that might otherwise be lost? Are the moral objections to hunting for pleasure well founded? Does recreational hunting support rural livelihoods in developing countries, or are these benefits exaggerated by proponents? For the first time, this book addresses many of the issues that are fundamental to an understanding of the real role of recreational hunting in conservation and rural development. It examines the key issues, asks the difficult questions, and seeks to present the answers to guide policy. Where the answers are not available, it highlights gaps in our knowledge and lays out the research agenda for the next decade. **Tourism and Development in the Developing World** David J.

Telfer, Richard Sharpley, 2015-12-14 Tourism is widely considered to be an important factor in socio economic development particularly in less developed countries However despite almost universal recognition of tourism s development potential the extent to which economic and social progress is linked to the growth of a country s tourism sector remains the subject of intense debate Tourism and Development in the Developing World offers a thorough overview of the tourism development relationship Focusing specifically on the less developed world and drawing on contemporary case studies this updated second edition questions widely held assumptions on the role of tourism in development and seeks to highlight the challenges faced by destinations seeking to achieve development through tourism The introductory chapter establishes the foundation for the book exploring the meaning and objectives of development reviewing theoretical perspectives on the developmental process and assessing the reasons why less developed countries are attracted to tourism as a development option The concept of sustainable development as the most widely adopted contemporary model of development is then introduced and its links with tourism critically assessed Subsequent chapters explore the key issues associated with tourism and development including the rise of globalization the tourism planning and development process the relationship between tourism and communities within which it is developed the management implications of trends in the demand for and uptake of tourism and an analysis of the consequences of tourism development for destination environments economies and societies A new chapter considers the challenges of climate change sustainability of resource supply oil water and food global economic instability political instability and changing demographics Finally the issues raised throughout the book are drawn together in a concluding chapter that assesses the tourism and development dilemma Combining an overview of essential concepts theories and knowledge with an analysis of contemporary issues and debates in tourism and development this new edition will be an invaluable resource for those investigating tourism issues in developing countries The book will be of interest to students of tourism development geography and area studies international relations and politics and sociology
