Activating and Engaging Learners and Teachers Carmen Amerstorfer, Max von Blanckenburg, 2023-03-13 This book offers a nuanced integrated understanding of EFL learning and instruction and investigates both learner and teacher perspectives on four thematically interconnected parts. Part I encompasses chapters on psychological aspects related to teaching and learning and presents the latest research on positive language education, teacher empathy, and well-being. Part II deals with EFL teaching methodology specifically related to teaching pronunciation, language assessment, peer response, and strategy instruction. Part III addresses aspects of cultural learning including inter- and transculturality, digital citizenship, global learning, and cosmopolitanism. Part IV concerns teaching with literary texts for instance to reflect on social and political discourse, facilitate empowerment, imagine utopian or dystopian futures, and to bring non-Western narratives into language classrooms.

Reform as Learning Lea Ann Hubbard, Mary Kay Stein, Hugh Mehan, 2013-10-18 Looking closely at the recent reform efforts in San Diego, this book explores the full range of critical issues pertaining to urban school reform. Drawing on the systemic school reform initiative that was launched in San Diego in the 1990s, this book explores all layers of the school reform process from leadership in the central office to work with principals and teachers to the impact on how teachers worked with students in the classroom. The authors draw on careful ethnographic research collected over the entire four years of the San Diego reforms in order to identify not only how teachers, principals, and other district educators were shaped by the large-scale reforms but also the ways in which the reform unfolded. In doing so, the book shows more broadly how actors throughout a school system can change the views of leaders and impact the larger reform process.
