Administration,1971 **August 2019 Monthly Current Affairs with MCQs for Competitive Exams** Disha
Experts,2019-08-04 **StarBriefs 2001** ,2012-12-06 This compilation probably looks like one of the craziest things a human
being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five
years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared
first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication
since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in
decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the
vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the
meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing
with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this
compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused
