A Journey of Self-Discovery Bhikkhu Revata,2016-09-18 The Buddha never compelled anybody to have blind faith in Him He just exhorted us to depend on our own wisdom It is not because we are born as humans that we become wise or foolish It is because we can bring our defilements under control that we become wise and it is because we can t bring our defilements under control that we become foolish We all have both good and bad qualities Snakes chickens and pigs are not created for you to eat It is in such existences that you yourself have been born before We can t harm anybody without harming ourselves We can t disturb others without disturbing ourselves Patience means accepting Very beautiful Accepting both the desirable and the undesirable is the perfection of patience You make friends with the defilements all the time but the defilements never treat you as a friend in return They treat you as an enemy The Buddha never says Come and believe He says Come and see the wise can know the wise can see One who sees the Dhamma sees me One who sees me sees the Dhamma From a book published by Pa Auk Meditation Centre a Centre of Therav da Buddhist Tradition

Self-examination in Psychoanalysis and Psychotherapy William F. Cornell, 2018-07-17 Self examination in Psychoanalysis and Psychotherapy provides open and intimate accounts of the experience of being in psychotherapy The internal life of the therapist is as much at the heart of the stories told as those of the clients William F Cornell here writes in a more personal and literary voice avoiding as much as possible the dense theoretical language that often typifies analytic writing Central to the thesis elaborated in this book is that of how the therapist's own personal history and unconscious motivations can deepen or distort the therapist's understanding of the client One chapter is devoted to the frank discussion of the author's work with a client that was not only unhelpful but in fact harmful Cornell emphasizes the capacity to call one's

self into question as a fundamental outcome of psychotherapy and psychoanalysis Attention is paid to the conscious and unconscious forces that create profound dynamic tensions between the enlivening desire for a fuller life and the defenses that deaden one's capacity to think and to engage more fully in one's life and relationships The dynamics of transgenerational transmission of grief loss and trauma are also examined closely The psychotherapist as person and professional rather than the clients is at the heart of this book Self examination in Psychoanalysis and Psychotherapy will appeal to all psychoanalysts and psychoanalytic psychotherapists who will find an exceptionally open discussion of the challenges learning and meanings of being a psychotherapist
