Huat, David G. Toll, Arun Prasad, 2012-05-24 Residual soils are found in many parts of the world Like other soils they are used extensively in construction either to build upon or as construction material They are formed when the rate of rock weathering is more rapid than transportation of the weathered particles by e g water gravity and wind which results in a large share of the soil *Technical Resource Document* Robert P. Hartley, 1991 Unsaturated Soils, Two Volume Set Eduardo Alonso, Antonio

Gens,2010-09-02 In recent decades the development of unsaturated soil mechanics has been remarkable resulting in momentous advances in fundamental knowledge testing techniques computational procedures prediction methodologies and geotechnical practice The advances have spanned the full spectrum of theory and practice In addition unsaturated materials exhibiting complex behaviour such as residual soils swelling soils compacted soils collapsing soils tropical soils and solid wastes have been integrated in a common understanding of shared behaviour features It is also noteworthy that unsaturated soil mechanics has proved surprisingly fruitful in expanding to other neighbouring areas such as swelling rocks rockfill mechanics and freezing soils As a consequence geotechnical engineering involving unsaturated soils can be now approached from a more rational and systematic perspective leading towards an improved and more effective practice Unsaturated Soils contains the papers presented at the 5th International Conference on Unsaturated Soil Barcelona Spain 6 8 September 2010 They report significant advances in the areas of unsaturated soil behaviour testing techniques constitutive and numerical modelling and applications The areas of application include soil atmosphere interaction foundations slopes embankments pavements geoenvironmental problems and emerging topics They are complemented by three keynote lectures and three general reports covering general issues of modelling testing and applications Unsaturated Soils is a comprehensive record of the state of the art in unsaturated soil mechanics and a sound basis for further progress in the future The two volumes will serve as an essential reference for academics researchers and practitioners interested in unsaturated soils *Fossil Free Fuels* Maniruzzaman Bin A. Aziz,KHAIRUL ANUAR KASSIM,WAN AZELEE WAN ABU BAKAR,AMINATON MARTO,Syed Anuar Faua ad Syed Muhammad,2019-10-24 Many approaches have been undertaken to mitigate global climate change including the movement away from fossil fuels Fossil Free Fuels Trends in Renewable Energy examines several key topics such as the utilization of biofuels as a sustainable renewable resource recycling and untapped waste to energy products and other carbon neutral strategies in various industries such as the transportation construction and manufacturing sectors It provides recent updates on the latest technologies modeling design and technical aspects as well as several practical case studies The current world energy scenario is examined and various solutions to larger environmental problems are outlined in terms of the shift to more alternative energy sources Features Minimizes technical jargon in a straightforward style for a wider audience Discusses sustainable options for different industries such as the use of green materials in the construction sector biofuels for transportation and many more Includes numerous illustrations tables and figures to aid in understanding This book serves as a practical reference for engineers researchers environmental consultants working in renewable energy industries and students *ICE Manual of Geotechnical Engineering Volume 1* Hilary Skinner,D G Toll,Kelvin Higgins,Mike Brown,John Burland,2023-11-17 ICE Manual of Geotechnical Engineering Second edition brings together an exceptional breadth of material to provide a definitive reference on geotechnical engineering solutions Written and edited by leading specialists each chapter provides contemporary guidance and best practice knowledge for civil and structural engineers in
