Leadership for a Digital World Annika Steiber, 2022-05-07 The pace of change today is unprecedented. As more than one observer has said, change itself has changed. Technologies and markets in virtually every industry are now subject to rapid and unpredictable change, placing a premium on the ability to successfully manage new paradoxes such as being entrepreneurial and efficient as well as able to sense shifts and rapidly respond and secure enough stability for quality and efficiency. In short, enterprise leaders face a paradigm shift in management and they will be forced to transform their organizations in order to survive in the 21st century. This book will provide leaders with the fundamental principles for managing a firm in the digital economy as well as the Rendanheyi business model developed for the new century. Finally, the book will provide leaders with a case based on GE Appliances on how they can effectively transform their own organizations.
