Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff's cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann **Fifty Key Figures in Management** Morgen Witzel, 2003 A collection of biographies of fifty people who have helped make management what it is today **Gurdjieff** Joseph Azize, 2020 This is the first analysis of all of Gurdjieff's published internal exercises together with those taught by his students George and Helen Adie. It includes a fresh biographical study of Gurdjieff with ground breaking observations on his relationships with P. D. Ouspensky and A. R. Orage especially why he wanted to collaborate with them and why that broke down. It shows that Gurdjieff was fundamentally a mystic and that his contemplation like methods were probably drawn from Mt Athos and its hesychast tradition. It shows the continuity in Gurdjieff's teaching but also development and change. His original contribution to Western Esotericism lay in his use of tasks disciplines and contemplation like exercises to bring his pupils to a sense of their own presence which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation. It contends that he had initially intended not to use contemplation like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching. As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post religious culture he found it necessary to introduce contemplation. His development

of the methods is demonstrated and the importance of the three exercises in the Third Series Life Is Real only then when I Am is shown together with their almost certain borrowing from the exercises of the Philokalia G I Gurdjieff P D Ouspensky A R Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism *Gurdjieff's America* Paul Beekman Taylor, 2004 Offers information and stories about Gurdjieff setting him within the cultural and social contexts of America between 1924 and 1935 **Making No Compromise** Holly A. it is safe for more vulnerable students This guidance is based on a combination of existing pedagogical and clinical knowledge about meeting the needs of vulnerable students clients and patients and the specialized expertise of trained mindfulness clinicians and teachers This book puts school and university teachers in the driver s seat as regards mindfulness teaching in education settings It argues that the only way forward for mindfulness in education is to adopt an individualized approach which builds on what effective teachers already do in their work with vulnerable students through extending their knowledge about mindfulness and its possible effects In this way teachers existing skills are celebrated and extended and mindfulness pedagogy develops organically with teachers becoming a genuine and felt experience both for themselves and their students rather than an add on intervention William Lethaby, Symbolism and the Occult Amandeep Kaur

Rethinking Religion in the Theatre of Grotowski Catharine Christof,2017-03-27 This book opens a new interdisciplinary frontier between religion and theatre studies to illuminate what has been seen as the religious or spiritual nature of Polish theatre director Jerzy Grotowski s work It corrects the lacunae in both theatre studies and religious studies by examining the interaction between the two fields in his artistic output The central argument of the text is that through an embodied and materialist approach to religion developed in the work of Michel Foucault and religious studies scholar Manuel Vasquez as well as a critical reading of the concepts of the New Age a new understanding of Grotowski and religion can be

developed It is possible to show how Grotowski's work articulated spiritual experience within the body achieving a removal of spirituality from ecclesial authorities and relocating spiritual experience within the body of the performer This is a unique analysis of one of the 20th Century's most famous theatrical figures As such it is a vital reference for academics in both Religion and Theatre Studies that have an interest in the spiritual aspects of Grotowski's work **Contemporary**

Spiritualities Stefania Palmisano, Nicola Pannofino, 2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious
