Questions in the Psychology of Religion Kevin S. Seybold, 2017-03-16 What does it mean to be human What is the origin of religious beliefs Why are we moral creatures Are religious experiences different from our everyday experiences Is my brain involved in my experiencing God What is a soul and do I have one Is religion a result of evolutionary processes How might psychology and religion relate Religious experiences behaviors thoughts and emotions are determined at least in part by natural physical processes As a result the empirical methods used in psychology to try to identify the natural mechanisms that influence why we act think and feel the way we do can provide important insights into the fundamental and universal phenomena of religion Drawing on current research from a variety of disciplines *Questions in the Psychology of Religion* is appropriate for college students studying psychology pastors as they help their congregations understand how religion and science might go together and anyone who learns about recent discoveries in psychological science and wonders how these findings pertain to religion and religious experiences

Humanity Before God William Schweiker, Michael A. Johnson, Kevin Jung, Much of the rampant violence in the world today seems rooted in religion and daily we see its vast potential for both creation and destruction In the face of religious extremism religious pluralism and globalization it has become profoundly important to reassess what the three often conflicting Abrahamic traditions affirm about being human before God

The Power of Connection Judith V. Jordan, 2013-09-13 Relational Cultural theory RCT proposes that all people grow through and toward relationships throughout the lifespan RCT challenges prevailing theories that depict the separate self as the hallmark of maturity Rather than movement toward autonomy and separation RCT suggests we develop ever more differentiated ways of connecting An increase in growth fostering relationships results in a sense of vitality and zest increasing clarity about ourselves and others augmented creativity and ability to take action an experience of worth and empowerment and a desire for more connectedness with others Disconnections are inevitable in relationships and RCT focuses on relational resilience the ways people can re establish positive and growth fostering relationships RCT further emphasizes the importance of cultural and societal forces in causing either growth fostering connection or destructive disconnection This volume explores the process of change in therapy and in other relationships how race and other forms of stratification create pain and how people develop

resilience and strength in relationships characterized by mutuality This book was based on a special issue of Women and Therapy

The Child Welfare Challenge James K. Whittaker, 2017-07-12. Within a historical and contemporary context, this book examines major policy, practice, and research issues as they jointly shape child welfare practice and its future. In addition to describing the major problems facing the field, the book highlights service innovations that have been developed in recent years. The resulting picture is encouraging, especially if certain major program reforms are implemented and agencies are able to concentrate resources in a focused manner. The volume emphasizes families and children whose primary recourse to services has been through publicly funded child welfare agencies. The book considers historical areas of service: foster care and adoptions in home, family-centered services, child protective services, and residential services where social work has an important role. Authors address the many fields of practice in which child and family services are provided or that involve substantial numbers of social work programs, such as services to adolescent parents, child mental health, education, and juvenile justice agencies. This new edition will continue to serve as a fundamental introduction for new practitioners as well as a summary of recent developments for experienced practitioners.

The Deepest Longing of Young People Jerry Goebel, 2006. The best way to teach young people that they are valuable and meaningful is to offer them uninterrupted attention. By that simple yet powerful act, we are showing young people that it isn't what they can do for us that matters. What matters is their inalienable right to unconditional love. This is the deepest longing of our young people today: consistent, transparent relationship, not a new program or curriculum to tell them what to do or what they should value, but a caring, compassionate adult who will walk the path to wholeness with them. In *The Deepest Longing of Young People*, Jerry Goebel reminds us that the greatest statement we make to young people is to spend time with them, to come to them, especially when they have been most inconsistent and at that time be least judgmental. Every parent and everyone who works with youth should read this book.
