Harris' Justice of the Peace Guide for the State of Washington (Classic Reprint) Arthur M. Harris, 2015-07-11

Excerpt from Harris Justice of the Peace Guide for the State of Washington The aim of this book is to show the conduct of the case in a justice of the peace court from the filing of the complaint to the execution of the judgment or the appeal therefrom It is not a treatise or thesis on the origin and history of justices of the peace it is a plain practical guide to the laws and procedure of these courts of limited jurisdiction The author has endeavored to simplify the intricacies of procedure by simple explanatory introductions or editorial matter to the various statutes The justice is cited to Remington any imperfections that remain are intentionally left to preserve the state of such historical works *The Bloomsbury Handbook of Global Justice*

and East Asian Philosophy Janusz Salamon, Hsin-Wen Lee, 2024-08-22 Breaking out of the dominance of Anglo American scholarship this volume centralises East Asian philosophical traditions to explore cross cultural perspectives in the field of global justice studies By bringing together diverse traditions of thinking about justice that contrasts East Asian and Western thinkers traditions it avoids the shortcomings of narrow and one sided conceptualisations of global justice A range of contributors from East Asia Europe and the US who are conversant with both Western and East Asian philosophical traditions provide a rich engagement with contemporary issues relating to global justice The book opens with a section devoted to the methodological challenges specific to cross cultural approaches to justice including the universalism particularism debate and the conditions of the possibility of cross cultural comparisons Part II explores how major East Asian philosophical traditions including Confucianism Legalism Daoism and Buddhism consider issues related to global justice The essays in Part III adopt a cross cultural and or comparative perspective on justice enabling the readers to appreciate similarities and differences between the East Asian and Western perspectives on justice and to appreciate cultural variation Key applied issues in global justice such as epistemic injustice human rights women s rights nationalism religious pluralism coercion corruption and post colonial justice receive full consideration in the final section of this indispensable reference work for understandings of global justice in East Asia specifically and cross culturally **Corrections: A Text/Reader** Mary K. Stohr, Anthony Walsh, Craig Hemmens, 2012-03-20 Corrections A Text Reader Second Edition is designed for

undergraduate and or graduate corrections courses Organized like a traditional corrections text it offers brief authored introductions in a mini chapter format for each key Section followed by carefully selected and edited original articles by leading scholars This hybrid format ensuring coverage of important material while emphasizing the significance of contemporary research offers an excellent alternative which recognizes the impact and importance of new directions and policy in this field and how these advances are determined by research □□□□□□□□, 1974 **Tyranny Through Public Education - Revised Edition** William F. Jr Cox, 2004-04 This book documents the inherently flawed nature of America s public school system as currently structured Contemporary recommendations for correcting the system invariably treat

symptoms rather than the inherent problem of government control over parental and religious rights The book documents that education is a religious endeavor and that freedom of religion is guaranteed in the United States parents have an inalienable right to raise their children free from government constraints on education civil government is to protect and not deprive citizens of their inalienable rights the educational history of our country affirms that education has always had a religious function recent interpretations of the First and Fourteenth Amendments are both misguided and opposite from their original meanings federal control of education and education taxation is outside the legitimate authority of the U S Constitution and government control of education at federal state and local levels is inherently tyrannical Addressed in separate chapters the above mentioned issues individually and collectively build a compelling case for the disestablishment of government control and the return of parental control to education To quote James Madison government should relate to education in the same way as it does to religion not to intermeddle with it *The Access of Individuals to International*

Dowd, 2011 Children and youth become involved with the juvenile justice system at a significant rate While some children move just as quickly out of the system and go on to live productive lives as adults other children become enmeshed in the system developing deeper problems and or transferring into the adult criminal justice system Justice for Kids is a volume of work by leading academics and activists that focuses on ways to intervene at the earliest possible point to rehabilitate and redirect to keep kids out of the system rather than to punish and drive kids deeper Justice for Kids presents a compelling argument for rethinking and restructuring the juvenile justice system as we know it This unique collection explores the system's fault lines with respect to all children and focuses in particular on issues of race gender and sexual orientation that skew the system Most importantly it provides specific program initiatives that offer alternatives to our thinking about prevention and deterrence with an ultimate focus on keeping kids out of the system altogether The Logic of Women on Trial Janice E. Schuetz, 1994 Janice Schuetz investigates the felony trials of nine American women from colonial Salem to the present Rebecca Nurse tried for witchcraft in 1692 Mary E Surratt tried in 1865 for assisting John Wilkes Booth in the assassination of Abraham Lincoln Lizzie Andrew Borden tried in 1892 for the axe murder of her father and stepmother Margaret Sanger tried in 1915 1917 and 1929 for her actions in support of birth control Ethel Rosenberg tried in 1951 for aiding the disclosure of secrets of the atom bomb to the Soviets Yvonne Wanrow tried in 1974 for killing a man who molested her neighbor's daughter Patricia Campbell Hearst tried in 1975 for bank robbery as a member of the Symbionese Liberation Army Jean Harris tried in 1982 for killing Herman Tarnower the Diet Doctor and Darci Kayleen Pierce tried in 1988 for kidnapping and brutally murdering a pregnant woman then removing the baby from the woman's womb In her analysis Schuetz is careful to define these trials as popular trials Characteristically popular trials involve persons issues or crimes of social interest that attract extensive public interest and involvement Such trials make a contribution to the ongoing historical dialogue about the meaning of justice and the legal system while reflecting the values of the time and place in which they occur Schuetz examines the kinds of communication that transpired and the importance of gender in the trials by applying a different current rhetorical theory to each trial text In every chapter she explains her chosen interpretive theory compares that framework with the discourse of the trial and makes judgments about the meaning of the trial texts based on the interpretive theory *Justice, Justice* Daniel Hiram Perlstein, 2004 A path breaking study of teacher organizing civil rights movement activism and urban education Justice Justice School Politics and the Eclipse of Liberalism recounts how teachers and activists' ideals shaped the school crisis and placed them at the epicenter of America's racial conflict **Race and Crime** Shaun L. W. E. B. Du Bois and the Critique of the Competitive Society Andrew J. Douglas, 2019-08-15 Competition and competitiveness are roundly celebrated as public values and key indicators of a dynamic and forward thinking society But the headlong embrace of competitive market principles increasingly prevalent in our neoliberal age often obscures the enduring divisiveness of a society set up to produce winners and losers In this inspired and thoughtfully argued book Andrew J Douglas turns to the later writings of W E B Du Bois to reevaluate the very terms of the competitive society Situating Du Bois in relation to the Depression era roots of contemporary neoliberal thinking Douglas shows that into the 1930s Du Bois ratcheted up a race conscious indictment of capitalism and liberal democracy and posed unsettling questions about how the compulsory pull of market relations breeds unequal outcomes and underwrites the perpetuation of racial animosities Blending historical analysis with ethical and political theory and casting new light on several aspects of Du Bois s thinking this book makes a compelling case that Du Bois s sweeping disillusionment with Western liberalism is as timely now as ever
