Its Not Fair Parenting The Bright And Challenging Child:

It's Not Fair! Alison Baverstock, Gill Hines, 2009-09-03 This book addresses the fact that time poor parents may push their bright children to achieve academically but often pay little attention to their social skills with the result that when these children reach their teens and are making decisions on their own about complex adult issues such as sexual activity drugs and alcohol etc they will lack the maturity or life experience to negotiate such issues effectively and may get hurt and damaged along the way This insightful and practical book is aimed at parents of preteens who have bright risk taking independent children who are hard to rein in It will help parents to identify and handle areas of concern before they become problems Chapters cover risks communication and support boundary setting saying no self esteem and the art of being happy preparing your child to negotiate the key issues faced in adolescence encouraging personal responsibility and much more

Later! Gill Hines, Alison Baverstock, 2014-09-04 One minute you are taking your child to school the next they re turning into a young adult It may seem like only months since you were first filling your child s lunch box but the school career moves with such momentum that it isn t long before they are facing the challenges of further education job hunting and living independently This new book will help you to encourage self reliance in your nearly grown children and prepare them for independence in the real world It also shows how you can prepare for a time when your child s excitement at the prospect of leaving school going to university or just living on their own leaves you feeling passed over and obsessed by detail they see as unimportant How do you start to think about what to do with the rest of your life picking up on ambitions both personal and professional and prioritising your own friends and interests And how do you handle the situation when as is increasingly common children later decide to return home to live This book addresses current issues such as boomerang kids sofa syndrome and how to motivate money management for a generation disinclined to save the hotel of Mum and Dad and much more Later is an empathetic guide to making sense of life at a time when all the ground rules need to be reconsidered if not renegotiated Packed with strategies exercises and question and answer sections Later is user friendly and entirely practical It considers the hopes and plans of parents and children alike and in the process demonstrates how to move on while sustaining a supportive happy relationship

What's Wrong with My Child? Sandra Surace, 2010 At least six million American children have difficulties that are diagnosed as serious mental disorders according to government surveys a number that has tripled since the early 1990s But there is little convincing evidence that the rates of illness have increased in the past few decades Rather many experts say it is the frequency of diagnosis that is going up in part because doctors are more willing to attribute behavior problems to mental illness and in part because the public is more aware of childhood mental disorders NY Times 2006 According to the US Attorney General Mental disorders are characterized by abnormalities in cognition emotion or mood or the highest integrative aspects of behavior such as social interactions or planning of future activities The process of diagnosing these disorders comes with a great deal of controversy Before a diagnosis is accepted the

practitioner must be able to explain how the behaviors differ from normal developmental behaviors In Hope s case medical treatment would not be effective in reducing symptoms because her environment never changed The sexual abuse never stopped and Hope was merely medicated into submission Once the need for medications for such a young girl reached three the psychiatrist should have started asking other questions However since psychiatry categorizes the individual once labeled it stops questioning the diagnosis as being potentially false and thereby confines treatment to the social standard of normal

Contesting Stereotypes and Creating Identities Andrew J. Fuligni, 2007-05-31 Since the end of legal segregation in schools most research on educational inequality has focused on economic and other structural obstacles to the academic achievement of disadvantaged groups But in *Contesting Stereotypes and Creating Identities* a distinguished group of psychologists and social scientists argue that stereotypes about the academic potential of some minority groups remain a significant barrier to their achievement This groundbreaking volume examines how low institutional and cultural expectations of minorities hinder their academic success how these stereotypes are perpetuated and the ways that minority students attempt to empower themselves by redefining their identities The contributors to *Contesting Stereotypes and Creating Identities* explore issues of ethnic identity and educational inequality from a broad range of disciplinary perspectives drawing on historical analyses social psychological experiments interviews and observation Meagan Patterson and Rebecca Bigler show that when teachers label or segregate students according to social categories even in subtle ways students are more likely to rank and stereotype one another so educators must pay attention to the implicit or unintentional ways that they emphasize group differences Many of the contributors contest John Ogbu s theory that African Americans have developed an oppositional culture that devalues academic effort as a form of acting white Daphna Oyserman and Daniel Brickman in their study of black and Latino youth find evidence that strong identification with their ethnic group is actually associated with higher academic motivation among minority youth Yet as Julie Garcia and Jennifer Crocker find in a study of African American female college students the desire to disprove negative stereotypes about race and gender can lead to anxiety low self esteem and excessive self defeating levels of effort which impede learning and academic success The authors call for educational institutions to diffuse these threats to minority students identities by emphasizing that intelligence is a malleable rather than a fixed trait *Contesting Stereotypes and Creating Identities* reveals the many hidden ways that educational opportunities are denied to some social groups At the same time this probing and wide ranging anthology provides a fresh perspective on the creative ways that these groups challenge stereotypes and attempt to participate fully in the educational system

children's happiness and success covering a wide range of factors influencing positive functioning. It offers a holistic view of children's well-being, identifying both threats and catalysts to happiness and success, as well as evidence-based strategies that promote optimal functioning. The first section of the book delves into the science of happiness, discussing the role of early social relationships, the importance of experiencing positive emotions, and the connection between spirituality and physical health. The second section focuses on the science of success, exploring topics such as mindsets, self-control, and executive functions. Finally, the book explores individual and contextual factors explaining why character matters, the influence of media and technology, and the critical role of disadvantaged environments. Presenting happiness as an ongoing journey intertwined with the pursuit and achievement of personal goals, the book concludes by proposing a new conceptual framework which identifies pivotal contributors to children's happiness and success, such as relationships, self-regulation, and competence. Suited to upper-level undergraduate and graduate courses in child development, family studies, education, and positive psychology, this book is also an invaluable resource for caregivers, educators, and child practitioners. It is a must-read for anyone interested in cultivating a fulfilling, well-lived life for children and adolescents. Navigating Divorce and Co-Parenting Barrett
