

Solutions Manual - Microelectronic Circuit Design - 4th Ed

By Richard C. Jaeger, Travis N. Blalock - McGraw-Hill (2010)

NOTE: these answers are for the International Edition (?)

But they're still very similar to the original (sometimes a, b, c, d answers will be switched around, and some numbers may be a little off. As a general rule, subtract 3 from the answer you are looking for and that should be the real one)

Special thanks to Moser from NIU for the main files
