Jacques Lacan Michael Clark, 1988 Jacques Lacan (Volume II) (RLE: Lacan) Michael Clark, 2014-01-23 This bibliography in two volumes originally published in 1988 lists and describes works by and about Jacques Lacan published in French English and seven other languages including Japanese and Russian It incorporates and corrects where necessary all information from earlier published bibliographies of Lacan s work Also included as background works are books and essays that discuss Lacan in the course of a more general study as well as all relevant items in various bibliographic sources from many fields **Death and Desire (RLE: Lacan)** Richard Boothby, 2014-02-05 The immensely influential work of Jacques Lacan challenges readers both for the difficulty of its style and for the wide range of intellectual references that frame its innovations Lacan s work is challenging too for the way it recentres psychoanalysis on one of the most controversial points of Freud s theory the concept of a self destructive drive or death instinct Originally published in 1991 *Death and Desire* presents in Lacanian terms a new integration of psychoanalytic theory in which the battery of key Freudian concepts from

the dynamics of the Oedipus complex to the topography of ego id and superego are seen to intersect in Freud's most far reaching and speculative formulation of a drive toward death Boothby argues that Lacan repositioned the theme of death in psychoanalysis in relation to Freud's main concern the nature and fate of desire In doing so Lacan rediscovered Freud's essential insights in a manner so nuanced and penetrating that prevailing assessments of the death instinct may well have to be re-examined Although the death instinct is usually regarded as the most obscure concept in Freud's metapsychology and Lacan to be the most perplexing psychoanalytic theorist Richard Boothby's straightforward style makes both accessible He illustrates the coherence of Lacanian thought and shows how Lacan's work comprises a return to Freud along new and different angles of approach Written with an eye to the conceptual structure of psychoanalytic theory *Death and Desire* will appeal to psychoanalysts and philosophers alike ***The Direction of Desire*** Mark Gerard Murphy, 2023-09-25 This book examines Lacanian psychoanalysis and Christian mystical theology demonstrating the former's potential for reinvigorating spiritual direction The author outlines how current methods of spiritual direction become saturated with self-help psycho-pop methodologies and that desire has therefore been foreclosed in these practices He suggests that the root of this is a focus on positive affective experientialism which means spiritual direction must focus on emotional wholeness healing and positivity Finally he argues that a new dialogue between John of the Cross a mystic whose writings on spiritual direction formulate part of the core of the Catholic spiritual tradition and Jacques Lacan can open the way for a spiritual direction beyond the confines of experientialism The book concludes that we can only escape the experiential commodification of spiritual direction by critiquing the drive to experience in and of itself This novel work will appeal in particular to students and scholars of psychoanalysis religion philosophy and critical theory **Jacques Lacan** Jean-Michel Rabaté, 2001-02-20 The French theorist Lacan has always been called a literary theoretician Here is for the first time a complete study of his literary analyses and examples with an account of the importance of literature in the building of his highly original system of thought Rabaté offers a systematic genealogy of Lacan's theory of literature reconstructing a doctrine based upon Freudian insights and revitalised through close readings of authors as diverse as Poe Gide Shakespeare Plato Claudel Genet Duras and Joyce Not simply an essay about Lacan's influences or style this book shows how the emergence of key terms like the letter and the symptom would not have been possible without innovative readings of literary texts **Play Among Books** Miro Roman, Alice_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science Using Lacan, Reading Fiction James M. the dual conceptualisation of memory developed by Freud and Lacan reliving versus recollecting the past the author shows how these narrators accounts assert the reality of the Holocaust as well as German wartime suffering while highlighting the reluctance of ordinary Germans to admit their involvement in the Nazi regime This delineation of the complex relationship of three generations to their history is deepened by the intertextual nature of the quintet Using the theory of Peter Brooks Umberto Eco Shoshana Felman and Hayden White the study explores how Grass s textual strategies encourage the reader to view all five works as one overarching narrative while simultaneously avoiding any literary or historical closure In the process the study places each book in the context of its moment of production and also considers the implications of Grass s belated admission in August 2006 that he served with the Waffen SS during the final months of World War Two

The Social Construction of Man, the State and War Franke Wilmer, 2004-04-16 Combining detailed analysis with a close reading of historical narratives documentary evidence and first hand interviews this is the first book on conflict to look seriously at the issue of ethnic identity and what it means for future peace

Historiography, Empire and the Rule of Law Ian Duncanson, 2011-10-06 Historiography Empire and the Rule of Law considers the intersection of these terms in the historical development of what has come to be known as the rule of law The book will be invaluable for all those engaged in research and the postgraduate study of socio legal and constitutional studies and early modern and modern history
