Understanding Media Psychology Gayle S. Stever, David C. Giles, J. David

Cohen, Mary E. Myers, 2025-07-23 *Understanding Media Psychology* is an authoritative introductory textbook on the growing field of media psychology. Providing an overview of topics in the field, it summarizes key concepts and theories and considers the importance of media psychology in today's society. The second edition of this bestselling textbook has been fully updated to reflect the changing landscape of media psychology. The new edition features a brand new chapter on news and political media as well as increased focus on AI and new forms of social media. It covers core areas such as positive media psychology, audience research, and the effect of gaming, violence, advertising, and pornography, critically engaging with contemporary discussions around propaganda, fake news, deepfakes, and how media and health psychology interacted during the COVID-19 pandemic and beyond. Written by a team of expert authors, this book will help readers understand the structures, influences, and theories around media psychology. Particular care is also given to addressing the interaction between issues of social justice and the media, as well as the effects media has on both the members of marginalized groups and how those groups are perceived. A student website and instructor resources provide further ways to engage with the content and support teaching and learning. Containing a range of pedagogical features throughout to aid teaching and student learning, including vocabulary and key terms, discussion questions, and boxed examples, this is an essential resource for media psychology courses at the undergraduate and introductory master's levels globally.

The Content Analysis Guidebook Kimberly A. Neuendorf, 2016-04-25 Content analysis is one of the most important but complex research methodologies in the social sciences. In this thoroughly updated Second Edition of *The Content Analysis Guidebook*, author Kimberly Neuendorf draws on examples from across numerous disciplines to clarify the complicated aspects of content analysis through step-by-step instruction and practical advice. Throughout the book, the author also describes a wide range of innovative content analysis projects from both academia and commercial research that provide readers with a deeper understanding of the research process and its many real-world applications.

Media Research Methods Ina Bertrand, Peter Hughes, 2017-10-13 This indispensable textbook provides student researchers with extensive guidance and methods from across the social sciences and humanities, showing them how to make informed choices and consider the many alternatives available throughout the research process. Unique in approach, the text focuses on how to do media research across three key strands: audiences, institutions, and texts, and critically assesses a wide range of methods, addressing why they are appropriate or useful in certain scenarios. Written by two experts with a wealth of experience between them in teaching research methods and skills, this excellent resource explains complex methods in a clear and accessible way, offering practical guidance on how to use different methodologies while situating the methods in the context of critical evaluations of previously published research. Providing a complete overview of media research methods while encouraging students to develop their own intellectual frameworks, this book is invaluable for undergraduates, postgraduates, novice and more experienced researchers of media communication and journalism.

The Routledge Handbook of Emotions and Mass Media Katrin Döveling, Katrin

Döveling, Christian von Scheve, Elly A. Konijn, 2010-10-04 The impact of mass media on individuals and society is to a great extent based on human emotions. Emotions in turn are essential in understanding how media messages are processed as well as media's impact on individual and social behavior and public social life. Adopting an interdisciplinary approach to the study of emotions within a mass media context, the *Handbook of Emotions and Mass Media* addresses areas such as evolutionary psychology, media entertainment, sociology, cultural studies, media psychology, political communication, persuasion, and new technology. Leading experts from across the globe explore cutting edge research on issues including the evolutionary functions of mediated emotions, emotions and media entertainment, measurements of emotions within the context of mass media, media violence, fear evoking media, politics and public emotions, features, forms and functions of emotions beyond the message, and provide the reader a glimpse into future generations of media technology. This compelling and authoritative *Handbook* is an essential reference tool for scholars and students of media communication studies, media psychology, emotions, cultural studies, sociology, and other related disciplines.
