Learn R Pedro J. Aphalo, 2020-07-28 Learning a computer language like R can be either frustrating fun or boring Having fun requires challenges that wake up the learner's curiosity but also provide an emotional reward on overcoming them This book is

designed so that it includes smaller and bigger challenges in what I call playgrounds in the hope that all readers will enjoy their path to R fluency Fluency in the use of a language is a skill that is acquired through practice and exploration Although rarely mentioned separately fluency in a computer programming language involves both writing and reading The parallels between natural and computer languages are many but differences are also important For students and professionals in the biological sciences humanities and many applied fields recognizing the parallels between R and natural languages should help them feel at home with R The approach I use is similar to that of a travel guide encouraging exploration and describing the available alternatives and how to reach them The intention is to guide the reader through the R landscape of 2020 and beyond Features R as it is currently used Few prescriptive rules mostly the author s preferences together with alternatives Explanation of the R grammar emphasizing the R way of doing things Tutoring for programming in the small using scripts The grammar of graphics and the grammar of data described as grammars Examples of data exchange between R and the foreign world using common file formats Coaching for becoming an independent R user capable of both writing original code and solving future challenges What makes this book different from others Tries to break the ice and help readers from all disciplines feel at home with R Does not make assumptions about what the reader will use R for Attempts to do only one thing well guide readers into becoming fluent in the R language Pedro J Aphalo is a PhD graduate from the University of Edinburgh and is currently a lecturer at the University of Helsinki A plant biologist and agriculture scientist with a passion for data electronics computers and photography in addition to plants Dr Aphalo has been a user of R for 25 years He first organized an R course for MSc students 18 years ago and is the author of 13 R packages currently in CRAN [The Practice of Enterprise Modeling](#) Geert Poels, Frederik Gailly, Estefania Serral Asensio, Monique Snoeck, 2017-11-14 This volume constitutes the proceedings of the 10th IFIP WG 8.1 Conference on the Practice of Enterprise Modeling held in November 2017 in Leuven Belgium The conference was created by the International Federation for Information Processing IFIP Working Group 8.1 to offer a forum for knowledge transfer and experience sharing between the academic and practitioner communities The 20 full papers and 4 short papers accepted were carefully reviewed and selected from 70 submissions They include research results practitioner experience reports and work in progress papers and were presented in 8 sessions covering diverse topics related to enterprise modelling and its application in practice [R Packages](#), 2018-08-01
