Plagiarism: How To Promote Good Source Use Pecorari, Diane, 2013-09-01 Plagiarism is a serious problem in higher education and one that the majority of university teachers have encountered This book provides the skills and resources that university teachers and learning and development support staff need in order to tackle it As a complex issue that requires thoughtful and sensitive handling plagiarism simply cannot be addressed by warnings detection software and punishment alone Teaching to Avoid Plagiarism focuses on prevention rather than punishment and promotes a proactive rather than reactive approach to dealing with the issue Topics covered in this book include The causes of plagiarism How universities currently deal with plagiarism How teachers can support students in effective source use The role of technology Issues for second language writers and international students Drawing on her teaching experience as well as her academic research Diane Pecorari offers a unique insight into this pervasive problem as well as practical advice on how to promote good source use to students and help them to avoid plagiarism With a series of activities to help readers solidify their grasp of the approaches advised in the book Teaching to Avoid Plagiarism is an essential guide for anyone in a student facing role who wants to handle plagiarism more effectively Diane Pecorari s book provides practical examples and activities on handling plagiarism blended with research based findings It is useful for teachers wanting to improve their understanding and practices in managing plagiarism but also student advisors and academic support skills staff who deal with issues of academic integrity This book makes a unique contribution to the field of plagiarism management as its structure affords direct professional development opportunities Assessment tasks broad questions and activities are provided at the end of each chapter encouraging readers to understand both policy and practice in their own institution to better manage

plagiarism and source attribution Dr Wendy Sutherland Smith School of Psychology Faculty of Health Deakin University Australia Teaching to Avoid Plagiarism successfully turns attention away from the detection and punishment of plagiarism and focuses instead on understanding and prevention through the promotion of good source use Combining practical activities based on real life examples with wide ranging original research this important book should be required reading not only for staff development officers and lecturers but more widely throughout the higher education community Maggie Charles Oxford University Language Centre Diane Pecorari s insightful research and scholarship on plagiarism is used to excellent effect in this book which advocates a proactive rather than reactive approach to the difficulties faced by students in learning how to integrate their source texts Thoughtful activities and discussion questions aimed at staff development are teamed with advice on ways to build in support within disciplinary writing which will help students master the necessary academic skills to avoid plagiarism The emphasis quite rightly is also on helping students understand how plagiarism disrupts the ethical values of the academy and is not just another hurdle placed in their way by academic insiders Dr Ann Hewings Director Centre for Language and Communication The Open University As stated by Diane Pecorari in the first sentence of this excellent volume plagiarism is a problem in our universities The volume demonstrates clearly how teachers and students can deal with this problem by developing a better understanding of the phenomenon on the one hand and developing specific skills in dealing with it on the other Working from the principle that an ounce of prevention is worth a pound of cure Diane Pecorari argues for a proactive approach to handling issues of plagiarism with an emphasis on the need to train students how to deal appropriately with sources As well as a clear exposition of the theoretical issues at stake the book contains a wealth of practical activities and discussion questions which will allow readers to develop the sort of competence in dealing with plagiarism that is the goal of the volume Professor John Flowerdew City University of Hong Kong

Workbook Steven Heighton,2011 A fresh and provocative picture of what it means to create literature this collection of Steven Heighton s notes to himself as he writes peeks into the mind of an acclaimed author The short pieces reveal Heighton s pointed cutting take on his own work and materialize the musings and meditations that come to him as he scribbles Offering new perspectives and insights into the creative process this wholly original book shows what lies outside the pages of the bestsellers written by this Canadian author **Great Source Write Source** Great Source,2010-12 **Time to Write** John Sylvester Lofty,2015-02-10 Analyzes interviews with students teachers and administrators to develop a new set of literacies essential for student success in the digital age To read John s work is to take on the role of a patient listener A book like a piece of music is scored for time and I feel Time to Write is scored adagio I believe that Time to Write can be read as a critique of the time chopping approach to education and an argument for presence for being fully open to experience for being there To do good work we must enter something like island time or what John calls existential time or what is sometimes called flow when we lose at least temporarily a sense of clock time from the Foreword by Thomas Newkirk Twenty

five years ago John Sylvester Lofty studied the influence of cultural time values on students resistance to writing instruction in an isolated Maine fishing community For the new edition of *Time to Write* Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education Lofty discovered how the island time values that previously informed students literacy learning have been transformed by outside influences including technology social media and the influx of new residents from urban areas Building on the ethnographic findings of the original study the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication and those of school based literacy Lofty examines the new literacies now essential for students in a technologically connected world both those who aspire to continue the traditional island work of lobster fishing and for the many who now choose to pursue other careers and attend college on the mainland

The Best of the Grammarians Francesca Schironi, 2018-10-31 A founding father of the art of philology Aristarchus of Samothrace 216 144 BCE made a profound contribution to ancient scholarship In his study of Homer's *Iliad* his methods and principles inevitably informed even reshaped his edition of the epic This systematic study places Aristarchus and his fragments preserved in the *Iliadic scholia* or marginal annotations in the context and cultural environment of his own time Francesca Schironi presents a more robust picture of Aristarchus as a scholar than anyone has offered previously Based on her analysis of over 4 300 fragments from his commentary on the *Iliad* she reconstructs Aristarchus methodology and its relationship to earlier scholarship especially Aristotelian poetics Schironi departs from the standard commentary on individual fragments and instead organizes them by topic to produce a rigorous scholarly examination of how Aristarchus worked Combining the accuracy and detail of traditional philology with a big picture study of recurrent patterns and methodological trends across Aristarchus work this volume offers a new approach to scholarship in Alexandrian and classical philology It will be the go to reference book on this topic for many years to come and will usher in a new way of addressing the highly technical work of ancient scholars without losing philological accuracy This book will be valuable to classicists and philologists interested in Homer and Homeric criticism in antiquity Hellenistic scholarship and ancient literary criticism

Annotation Madrid emerges from several years under wraps to reveal its new facelift Streets have been prettified boulevards swept through and transport untangled This in addition to its perennial attractions whether your interests lie in spectacular opera productions or chirpy folkloric zarzuela in cutting edge cuisine or ancient tiled tabernas in designer shoe shopping or mooching around flea markets Put together by journalists resident in the city Time Out Madrid also covers the artistic jewels housed in the Prado Thyssen and Reina Sofia as well as the etiquette of watching a bullfight or joining in with a flamenco performance plus where to stay and how to escape the city heat *Good Health* ,1929 **Language Learning Beyond the Classroom** David Nunan,Jack C. Richards,2015-01-30 This volume presents case studies of language learning beyond the classroom The studies draw on a wide range of contexts from North and South America to Europe and the Asia Pacific region Each provides principled links between theory research and practice While out of class learning will not replace the classroom ultimately all successful learners take control of their own learning This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning Although English is the primary focus of most chapters there are studies on a range of other languages including Spanish and Japanese **Project-Based Learning Applied to the Language Classroom** Juliana Franco Tavares/ Louise Emma Potter,2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren t enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language *The Volta Review* ,1927
