Lessons Learned John D. Foubert, 2013-07-24 The college years can be some of the most vibrant and transformative in

an individual's life but they are also fraught with uncertainty. The resident advisor or assistant RA not only confronts these decisions for him or herself but must also help his or her residents navigate the world of important decisions which the undergraduate experience presents. *Lessons Learned* is the definitive volume for training RAs to become comfortable with their roles as student leaders. Over four dozen common RA mistakes are discussed chapter by chapter in the form of individual letters written by experienced RAs to new staff members. Each chapter includes thought provoking discussion questions, a list of internet and media resources, and additional tips related to each situation. Now in its second edition, this updated volume provides a new overview of student developmental theory and covers a host of new topics including evolving thought on 21st century predicaments such as social media, texting, and the Internet. This is an important text for beginning and experienced RAs as well as for the university staff who train these crucial pillars of the university community.

College Students in the United States Kristen A. Renn, Robert D. Reason, 2023-07-03 In this book, the authors bring together in one place essential information about college students in the US in the 21st century. Synthesizing existing research and theory, they present an introduction to studying student characteristics, college choice and enrollment patterns, institutional types and environments, student learning, persistence, and outcomes of college. Substantially revised and updated, this new edition addresses contemporary and anticipated student demographics and enrollment patterns, a wide variety of campus environments such as residential, commuter, online, hybrid, and a range of outcomes including learning, development, and achievement. The book is organized around Alexander Astin's Inputs-Environment-Outputs (I-E-O) framework. Student demographics, college preparation, and enrollment patterns are the inputs; Transition to college and campus environments are the substance of the environment; The outputs are student development, learning, and retention, persistence, completion. The authors build on this foundation by providing relevant contemporary information and analysis of students' environments and outcomes. They also provide strategies for readers to project forward in anticipation of higher education trends in a world where understanding college students in the United States is an ongoing project. By consolidating foundational and new research and theory on college students, their experiences, and college outcomes in the US, the book provides knowledge to inform policies, programs, curriculum, and practice. As a starting point for those who seek a foundational understanding of the diversity of students and institutions in the US, the book includes discussion points, learning activities, and further resources for exploring the topics in each chapter.
