web mar 26 2020 what is the aim of a heating and cooling curve a heating curve of a substance gives the changes in temperature as we move from a solid to a liquid to a gas a cooling curve gives the changes in temperature as we move from gas to liquid to solid what is the aim of the heating curve of water

heating and cooling curves example 1 channels for pearson - Feb 09 2023

web if we re dealing with a gas we d still use two equals n cac would be the specific heat of gasses water and then here it would be the specific heat of ice now again going back to the question we re looking for liquid water so that would mean the answer is option c line segment cd would have the specific heat of liquid water

unit 8 heating cooling curves question bank miss - May 12 2023

web 1 the heating curve below represents a sample of a substance starting as a solid below its melting point and being heated over a period of time which statement describes the energy of the particles in this sample during interval de a both potential energy and average kinetic energy increase
