Bhowmick,Pawan Goyal,Navneet Goyal,Dhruv Kumar,2023-12-04 This book constitutes the proceedings of the 11th International Conference on Big Data and Artificial Intelligence BDA 2023 held in Delhi India during December 7 9 2023 The17 full papers presented in this volume were carefully reviewed and selected from 67 submissions The papers are organized in the following topical sections Keynote Lectures Artificial Intelligence in Healthcare Large Language Models Data Analytics for Low Resource Domains Artificial Intelligence for Innovative Applications and Potpourri

Rigor in Your Classroom Barbara R. Blackburn,2014-04-24 Teachers are required to increase the rigor for students but how This book by bestselling author and rigor expert Barbara Blackburn has the answer It is a treasure chest of more than 200 practical and

highly effective tools that can be used across grade levels and subject areas to increase student rigor leading your students to higher engagement and deeper learning Topics covered include Asking higher level questions Scaffolding to help all students achieve success Differentiating instruction and using modifications Fostering independence through gradual release of responsibility Increasing text difficulty and teaching close reading Setting high expectations Changing students views of success Encouraging effort and goal setting Creating an environment that is conducive to learning Using effective grading policies and assessment tools Working with parents colleagues and administrators And much much more Rigor in Your Classroom will be your go to resource throughout the school year as you continually return to it to try new tools with your students Bonus The tools are accompanied by graphic organizers charts templates and reproducibles for easy implementation

Integration of Wireless Sensor Networks in Pervasive Computing Scenarios Matthias Gauger,2010 Using wireless sensor networks as part of pervasive computing scenarios is a difficult problem It involves providing functionality and node behavior required by pervasive computing applications given the very limited capabilities and the constraints of wireless sensor nodes The goal of this work is to investigate the problem of integrating wireless sensor nodes and wireless sensor networks in pervasive computing scenarios and to develop solutions that facilitate such an integration Based on an analysis of both research areas of their specific properties and requirements as well as the similarities and differences of the two fields we identify and discuss a set of five fundamental problem areas that complicate the integration of sensor networks and pervasive computing communication network setup and configuration user experience security and flexibility and adaptability In the main part of this work we then introduce a total of six solution approaches that deal with different aspects of the identified problem areas

Distributed Graph Algorithms for Computer Networks Kayhan Erciyes,2013-05-16 This book presents a comprehensive review of key distributed graph algorithms for computer network applications with a particular emphasis on practical implementation Topics and features introduces a range of fundamental graph algorithms covering spanning trees graph traversal algorithms routing algorithms and self stabilization reviews graph theoretical distributed approximation algorithms with applications in ad hoc wireless networks describes in detail the implementation of each algorithm with extensive use of supporting examples and discusses their concrete network applications examines key graph theoretical algorithm concepts such as dominating sets and parameters for mobility and energy levels of nodes in wireless ad hoc networks and provides a contemporary survey of each topic presents a simple simulator developed to run distributed algorithms provides practical exercises at the end of each chapter

Data and Applications Security and Privacy XXXVI Shamik Sural,Haibing Lu,2022-07-12 This book constitutes the refereed proceedings of the 36th Annual IFIP WG 11 3 Conference on Data and Applications Security and Privacy DBSec 2022 held in Newark NJ USA in July 2022 The 12 full papers and 6 short papers presented were carefully reviewed and selected from 33 submissions The conference covers research in data and applications security and privacy

Graph Neural Network Methods and Applications in Scene

Understanding Weibin Liu, Huaqing Hao, Hui Wang, Zhiyuan Zou, Weiwei Xing, 2025-01-03 The book focuses on graph neural network methods and applications for scene understanding Graph Neural Network is an important method for graph structured data processing which has strong capability of graph data learning and structural feature extraction Scene understanding is one of the research focuses in computer vision and image processing which realizes semantic segmentation and object recognition of image or video In this book the algorithm system design and performance evaluation of scene understanding based on graph neural networks have been studied First the book elaborates the background and basic concepts of graph neural network and scene understanding then introduces the operation mechanism and key methodological foundations of graph neural network The book then comprehensively explores the implementation and architectural design of graph neural networks for scene understanding tasks including scene parsing human parsing and video object segmentation The aim of this book is to provide timely coverage of the latest advances and developments in graph neural networks and their applications to scene understanding particularly for readers interested in research and technological innovation in machine learning graph neural networks and computer vision Features of the book include self supervised feature fusion based graph convolutional network is designed for scene parsing structure property based graph representation learning is developed for human parsing dynamic graph convolutional network based on multi label learning is designed for human parsing and graph construction and graph neural network with transformer are proposed for video object segmentation

Advances in Computer Graphics Bin Sheng, Lei Bi, Jinman Kim, Nadia Magnenat-Thalmann, Daniel Thalmann, 2024-01-19 This 4 volume set of LNCS 14495 14498 constitutes the proceedings of the 40th Computer Graphics International Conference CGI 2023 held in Shanghai China August 28 September 1 2023 The 149 papers in this set were carefully reviewed and selected from 385 submissions They are organized in topical sections as follows Detection and Recognition Image Analysis and Processing Image Restoration and Enhancement Image Attention and Perception Reconstruction Rendering and Animation Synthesis and Generation Visual Analytics and Modeling Graphics and AR VR Medical Imaging and Robotics Theoretical Analysis Image Analysis and Visualization in Advanced Medical Imaging Technology Empowering Novel Geometric Algebra for Graphics and Engineering

Essentials of Psychological Testing Susana Urbina, 2011-01-13 An excellent primer on the key concepts of psychometrics Essentials of Psychological Testing surveys the basic principles of psychometrics supplies the information needed to understand and evaluate tests and introduces readers to the major contemporary reference works in the field It is the only book to provide such a thorough and up to date overview of psychometrics in an engaging accessible format As part of the Essentials of Behavioral Science series this book offers an overview of the most relevant psychometric concepts and techniques that provides the foundation necessary for knowledgeable informed practice Each concise chapter features numerous callout boxes highlighting key concepts bulleted points and extensive illustrative material as well as Test Yourself questions that help to gauge and

reinforce readers grasp of the information covered Starting with a basic introduction to psychological tests their historical development and their uses *Essentials of Psychological Testing* also covers the statistical procedures most frequently used in testing the frames of reference for score interpretation reliability validity and test item considerations as well as guidelines for test selection administration scoring and reporting test results Whether as an orientation for those new to the field a refresher for those already acquainted with it or as a reference for seasoned clinicians *Essentials of Psychological Testing* is an invaluable resource on the fundamentals of this evolving area of practice

Measuring Literacy National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Testing and Assessment, Committee on Performance Levels for Adult Literacy, 2006-01-13

The National Assessment of Adult Literacy NAAL is a household survey conducted periodically by the Department of Education that evaluates the literacy skills of a sample of adults in the United States ages 16 and older NAAL results are used to characterize adults literacy skills and to inform policy and programmatic decisions The Committee on Performance Levels for Adult Literacy was convened at the Department's request for assistance in determining a means for booking assessment results that would be useful and understandable for NAAL's many varied audiences Through a process detailed in the book the committee determined that five performance level categories should be used to characterize adults literacy skills nonliterate in English below basic literacy basic literacy intermediate literacy and advanced literacy This book documents the process the committee used to determine these performance categories estimates the percentages of adults whose literacy skills fall into each category recommends ways to communicate about adults literacy skills based on NAAL and makes suggestions for ways to improve future assessments of adult literacy
