Psychotherapeutic Change Through the Group Process Dorothy Stock Whitaker,Morton A. Lieberman,2008-03-01 Psychotherapeutic Change through the Group Process discusses the relation between the properties of groups and therapeutic change The purpose is to develop a view of groups that accounts for the diversity complexity and fluidity of the group situation The view examines the group in depth attending not only to overt events but also to covert aspects of specific situations The work addresses manifest behaviors underlying motivations and the cognitive rational aspects of the group It explores the intense affect which may be generated under conditions of group interaction not merely to the group or individual but to the individual in the group and to the group as the context for personal experience and change The research presented here was initially explored in small group studies Separate investigations considered the ways in which patients and therapists view group events the nature of deviation and the development of group standards They consider factors associated with therapeutic improvement and therapeutic failure and characteristic concerns of early sessions These plus several discussions of theory and methodology have been published separately The authors working procedure has been to study intensively a relatively small number of groups relying upon careful observation of natural groups rather than upon laboratory experimentation The overall effort has been to understand the processes of therapy groups in all their clinical

richness and intricacy and yet to impose a scientific discipline and control on our analyses This has meant a continuing attempt to develop appropriate analytic procedures so that clinical analyses can be as firmly rooted as possible in concrete data and reproducible methods This book is a unique effort at the scientific grounding of social work practice Dorothy Stock Whitaker is professor of social work at York University She is author of *Emotional Dynamics and Group Culture* Experimental Studies of Individual and Group Behavior and *Using Groups to Help People* Morton A Lieberman is professor of psychiatry and director of the Aging and Mental Health Program at the University of California San Francisco He is also director of the Alzheimer s Center at the university and is regarded as a leading expert in the fields of psychology of aging and group therapy

Counselor and The Group James P. Trotzer, 2013-03-07 The third edition of this text is expanded and embellished by the addition of chapters by noted group experts It is logically organized into chapters that present the merits rationale dynamics process and developmental tasks of group counseling It discusses leader and member dynamics in depth provides technical guidance for organizing and running groups and gives special emphasis to the use of structured activities in groups and the relevance of family theory as a resource to group leaders Readers will not only learn about groups but will learn how to lead groups The group process model presented is explained clearly using language and diagrams that are easy to follow The activities at the end of each chapter provide an experiential extension to the content so that readers can internalize and apply concepts The book is intended to be a hands on tool that will give credence to groups as a helping process in which clients learn to solve personal and interpersonal problems learn and grow in personally meaningful ways

Technology and Problem-based Learning Lorna Uden, 2006-01-01 This book is aimed at educators who may be considering introducing problem based learning and need to know what it involves its benefits and the practical details of how to implement it Provided by publisher

Psychotherapeutic Change Through the Group Process Leonard Blank, 2017-07-05 Psychotherapeutic Change through the Group Process discusses the relation between the properties of groups and therapeutic change The purpose is to develop a view of groups that accounts for the diversity complexity and fluidity of the group situation The view examines the group in

depth attending not only to overt events but also to covert aspects of specific situations The work addresses manifest behaviors underlying motivations and the cognitive rational aspects of the group It explores the intense affect which may be generated under conditions of group interaction not merely to the group or individual but to the individual in the group and to the group as the context for personal experience and change The research presented here was initially explored in small group studies Separate investigations considered the ways in which patients and therapists view group events the nature of deviation and the development of group standards They consider factors associated with therapeutic improvement and therapeutic failure and characteristic concerns of early sessions These plus several discussions of theory and methodology have been published separately The authors working procedure has been to study intensively a relatively small number of groups relying upon careful observation of natural groups rather than upon laboratory experimentation The overall effort has been to understand the processes of therapy groups in all their clinical richness and intricacy and yet to impose a scientific discipline and control on our analyses This has meant a continuing attempt to develop appropriate analytic procedures so that clinical analyses can be as firmly rooted as possible in concrete data and reproducible methods This book is a unique effort at the scientific grounding of social work practice

Group Process and Structure in Psychosocial Occupational Therapy Diane Gibson, 2014-02-04 Effective group leadership techniques are the focus of this practical sound volume Dedicated to assisting occupational therapy practitioners and students in understanding current theory and state of the art techniques in group treatment this functional book fills the gap left by existing literature and educational programs that focus mainly on diagnoses and task analysis Highly skilled professionals examine the important concepts of group therapy structural elements such as goals norms group size physical environment and instructions that can be varied depending on the purpose needs and functional level of the client the ability to guide and control process elements such as spontaneous feedback and the ability to support clients and help build a cohesive safe group Fascinating examples of innovative new group techniques social skills game mime group and the use of robots demonstrate how creative content can effectively combine structure and process in group treatment

Fundamentals of Group Process

Observation Devika Dibya Choudhuri, Christopher J. McCarthy, 2023-07-06 This edited collection covers the role of the process observer a position that enhances the effectiveness of group functioning by observing the process summarizing the behavior of the group so that the group can learn and if needed improve its functioning There is little guidance on best practices for this role and in most settings process observers are forced to rely on whatever previous training they have received in group work to fulfil their role The first of its kind this book offers a wealth of resources for the role of group process observer organized in a systematic way Each contributor focuses on a specific aspect of group process observation

identifying what is currently known on the topic suggesting best practices and providing the reader with tools structures and guidelines for effective process observation Students and educators of group work courses will find this book integral as it covers the existing gap in literature on group process observation **Public Health Service Publication** ,1969
