Arturo Arias, 2018-11-30 Recovering Lost Footprints Volume 2 is an in depth analysis of the sociohistorical conflict impacting Indigenous communities in Latin America. Continuing the project he began in volume 1 Arturo Arias analyzes contemporary Peninsular and Chiapanecan Maya narratives. He examines the works of Yucatecan writers Jorge Cocom Pech, Javier Gmez Navarrete, Isaac Carrillo Can and Marisol Ceh Moo. For Chiapas Arias looks at the works of Tseltal novelist Diego Mndez Guzm n Tsotsil short story writer Nicol s Huet Bautista and Tseltal narrative writer Jos as Lpez Gmez Arias problematizes the nature of Western modernity and the crisis of Western models of development in the present. By way of his analysis he suggests that we are facing a historical impasse because we have neglected native knowledges that offer alternative codes of ethics and beingness that emerge from Indigenous cosmovisions. The text skillfully contributes to and strengthens debates between US centered and Latin American cultural studies theorists as well as the hemispheric expansion of Native American

and Indigenous Studies Recovering Lost Footprints Volume 2 is inspired more by the past as it impinges upon a continuing constantly expanding present Arias's reading of Maya literatures forces us to reconsider the space time structure of Western thinking Indeed this book is intriguing precisely because it views literature from an Indigenous perspective evidencing how that social space is full of multiple contrasting experiences and historical processes *Also a History of Philosophy, Volume 2* Jürgen Habermas, 2024-09-26 In this second volume of his groundbreaking new work on the history of philosophy Jürgen Habermas traces the development of Western thought from the reception of Platonism by early Christian thought through the revolution in medieval philosophy and theology triggered by the rediscovery of Aristotle's works up to the decoupling of philosophical and theological thought in nominalism and the Reformation that ushered in the postmetaphysical thinking of the modern age In contrast to conventional histories that focus on movements and schools Habermas takes the dialectic of faith and knowledge as a guiding thread for analysing key developments in the thought of major figures such as Augustine Aquinas Scotus Ockham and Luther that constitute milestones in the genealogy of postmetaphysical thinking A distinctive feature of Habermas's approach is the prominence he accords practical philosophy and in particular legal and political ideas and the corresponding attention he pays to social institutional and political history especially as these bear on the relationship between church and state As a result the central preoccupations of Christian thought are shown to be original responses to questions raised by the Christian worldview that exploded the framework of Greek metaphysical thinking and remain crucial for the self understanding of contemporary philosophy Far from raising claims to exclusivity completeness or closure Habermas's history of philosophy published in English in three volumes opens up new lines of research and reflection that will influence the humanities and social sciences for decades to come **Hey Kids! Comics! surrendered and thousands of Allied troops went into captivity An attempt by the Japanese to deliver a knock out blow to the Americans by an attack on Midway failed catastrophically and the Americans scored a momentous victory in the Pacific Air Marshal Sir Arthur Harris became leader of the RAF and the thousand bomber raids and carpet bombing of German cities began The third year of the war ended with the disastrous Dieppe Raid carried out by Canadians in August 1942 Praise for The Second World War Illustrated The Third Year Packed with photographs of machines battles weapons and soldiers The book is nicely split into separate chapters with each concentrating on a specific event or operation that was being carried out during 1942 so you have the fight for North Africa the war in the East Pearl Harbor Burma the Bomber Raids over Germany War in the Pacific and the Commando Raid on St Nazaire etc Having read the previous book of the previous year I would say it was an equal and would happily recommend it to others especially if you re a younger learner or new to the subject UK Historian Teaching Writing through the Immigrant Story Heather Ostman,Howard Tinberg,Danizete Martínez,2021-12-01

Teaching Writing through the Immigrant Story explores the intersection between immigration and pedagogy via the narrative form Embedded in the contexts of both student writing and student reading of literature chapters by scholars from four year and two year colleges and universities across the country this book engages the topic of immigration within writing and literature courses as the site for extending critiquing and challenging assumptions about justice and equity while deepening students sense of ethics and humanity Each of the chapters recognizes the prevalence of immigrant students in writing classrooms across the United States including foreign born first and second generation Americans and more and the myriad opportunities and challenges those students present to their instructors These contributors have seen the validity in the stories and experiences these students bring to the classroom evidence of their lifetimes of complex learning in both academic and nonacademic settings Like thousands of college level instructors in the United States they have immigrant stories of their own The immigrant narrative offers a unique framework for knowledge production in which students and teachers may learn from each other in which the ordinary power dynamic of teacher and students begins to shift to enable empathy to emerge and to provide space for an authentic kind of pedagogy By engaging writing and literature teachers within and outside the classroom Teaching Writing through the Immigrant Story speaks to the immigrant narrative as a viable frame for teaching writing an opportunity for building and articulating knowledge through academic discourse The book creates a platform for immigration as a writing and literary theme a framework for critical thinking and a foundation for significant social change and advocacy Contributors Tuli Chatterji Katie Daily Bruckner Libby Garland Silvia Giagnoni Sibylle Gruber John Havard Timothy Henderson Brennan Herring Lilian Mina Rachel Pate Emily Schnee Elizabeth Stone

**Deception** Richard Sakwa,2021-11-11 The Russiagate affair is one of the most far reaching political events of recent years But what exactly was the nature and extent of Russian interference in the campaign that led to the presidency of Donald J Trump Richard Sakwa sets out the dramatic series of events that combined to create Russiagate and examines

whether together they form a persuasive account of Russia's role in the extraordinary 2016 American election. Offering a meticulous account of the multiple layers in play, his authoritative analysis challenges the claims of Russian interference and collusion. As we enter into a new cold war, this myth-busting, accessible and balanced account is essential reading to understand contemporary East-West relations.

**Women and Migration** Deborah Willis, Elyn Toscano, Kalia Brooks Nelson, 2019-03-08. The essays in this book chart how women's profound and turbulent experiences of migration have been articulated in writing, photography, art and film. As a whole, the volume gives an impression of a wide range of migratory events from women's perspectives, covering the Caribbean Diaspora, refugees and slavery through the various lenses of politics and war, love and family. The contributors, which include academics and artists, offer both personal and critical points of view on the artistic and historical repositories of these experiences. Selfies, motherhood, violence and Hollywood all feature in this substantial treasure trove of women's joy and suffering, disaster and delight, place, memory and identity. This collection appeals to artists and scholars of the humanities, particularly within the social sciences, though there is much to recommend it to creatives seeking inspiration or counsel on the issue of migratory experiences.

**Landmarks for Spatial Development** Stanislav Martinat, Vikas Kumar, André Torre, Yuliya Lavrikova, Evgeny Kuzmin, 2023-08-10. The book explores the uneven spatial distribution of territory resources and its implication for the sustainable development of regions and cities. The authors analyze the features of the localization of assets, paying attention to both the manifested factors and the conditions that determine the specificity of the current spatial organization. On the basis of multivariate analysis, gravity models, clustering method as well as the evaluation of concentration parameters, the authors propose various approaches to systematize territorial units, paying special attention to the peculiarities of their economic structure, resource diffusion, barriers and quality of life parameters. The obtained results indicate the need for a differentiated approach in the choice of guidelines for the transformation of the socio-economic space, allowing the researchers to propose various transformation models for differing regions. Thus, this book presents spatial organization models for different regional economies, highlighting various approaches to achieving the Sustainable Development Goals and reducing inequality. The book seeks to balance the benefits of polarized development with the need to avoid significant interregional disparities. At the same time, the book offers various solutions for differentiating territories, distinguishing different spatial elements and determining the most appropriate transformation options. The results obtained may be of interest to scholars in regional and spatial science as well as to professionals in the field of territorial development management.

**Heterotopic World Fiction** Lesley Higgins, Marie-Christine Leps, 2022-09-06. After more than a century of genocides and in the midst of a global pandemic, this book focuses on the critique of biopolitics, the government of life through individuals and the general population, and the counterdevelopment of biopoetics, an aesthetics of life elaborating a self as a practice of freedom realized in texts by Virginia Woolf, Michel Foucault and Michael Ondaatje. *Inclusive Solidarity and Citizenship along Migratory Routes in Europe and the Americas* Helge Schwiertz, Helen Schwenken, 2021-08-19 *Inclusive Solidarity and Citizenship along Migratory Routes in Europe and the Americas* links non essentialist concepts of solidarity and citizenship to migration in different empirical contexts The chapters in this edited volume analyse how civil society initiatives renegotiate societal structures in solidarity with people on the move noncitizens and racialized individuals and in doing so advance theorizing and contribute to current debates about citizenship and solidarity Focusing on solidarity among members of the so called majority society in Europe and the Americas this book offers a compendium of chapters that analyses particular practices of solidarity both material and symbolic as well as the mindsets discourses and broader societal contexts that provide the

fundament of these practices As these empirical cases demonstrate the main argument of the book is that solidarity is not necessarily based on a pre established and exclusive community but that more inclusive solidarities arise through collective practices the emergence of new subjectivities and the mediation of differences Furthermore the book argues that it is analytically fruitful to associate concepts of citizenship with solidarity by proposing the concept of solidarity citizenship in order to bring into view societal modes of relating that are constitutive of collective as well as individual subjectivities The chapters in this book were originally published as a special issue of the journal *Citizenship Studies*
