Santos, Jina Fast, Nicole K. Mayberry, Sid Simpson, 2024-10-29 Herbert Marcuse 1898 1979 was a member of the Frankfurt School a leading figure of 1960s counterculture and a fundamental character for the New Left His ideas and theories inspired by a rich fusion of Marxian and Freudian thought exert a strong influence on contemporary thinking about activism emancipation and political resistance He was also a student of Martin Heidegger in the late 1920s and engaged deeply with philosophy throughout his career *The Marcusean Mind* is an outstanding survey and assessment of Marcuse's thought Beginning with a thorough introduction to Marcuse's life and work 39 chapters by an international and interdisciplinary team of contributors are organized into five clear parts Intellectual Ecosystems of Marcuse Reason and Sensibilities Futures and Utopias Contemporary Movements Counterrevolutions Neoliberalism and Fascism These sections each contain a short introduction after which Marcusean ideas are brought to bear on many key contemporary debates and issues across the humanities social sciences and science and technology Including a Foreword by Craig Calhoun and an Afterword by Douglas Kellner *The Marcusean Mind* is a superb resource for anyone interested in Marcuse's thought and its legacy It is valuable reading for students of contemporary political theory activism philosophy sociology media and cultural studies critical legal studies and race and gender studies     **Toward a Concrete Philosophy** Mikko Immanen, 2020-11-15 *Toward a Concrete Philosophy* explores the reactions of Theodor Adorno Max Horkheimer and Herbert Marcuse to Martin Heidegger prior to their dismissal of him once he turned to the Nazi party in 1933 Mikko Immanen provides a fascinating glimpse of the three future giants of twentieth century social criticism when they were still looking for their philosophical voices By reconstructing their overlooked debates with Heidegger and Heideggerians Immanen argues that Adorno Horkheimer and Marcuse saw Heidegger's 1927 magnum opus *Being and Time* as a serious effort to make philosophy relevant for life again and as the most provocative challenge to their nascent materialist diagnoses of the discontents of European modernity Our knowledge of Adorno's Frankfurt discussion with Frankfurt Heideggerians remains anecdotal even though it led to a proto version of *Dialectic of Enlightenment*'s idea of the entwinement of myth and reason Similarly Horkheimer's enthusiasm over Heidegger's legendary post World War I lectures and criticism of *Being and Time* have escaped attention almost entirely And Marcuse's intriguing debate with Heidegger over Hegel and the origin of the problematic of being and time has remained

uncharted until now Reading these debates as fruitful intellectual encounters rather than hostile confrontations Toward a Concrete Philosophy offers scholars of critical theory a new thought provoking perspective on the emergence of the Frankfurt School as a rejoinder to Heidegger s philosophical revolution      **The Lost Debate** William David Jones,1999 Brings to light critiques of modern tyranny written by German socialist intellectuals before and during World War II about the definition origins nature and means of overcoming totalitarianism      **Kierkegaard and Critical Theory** Marcia Morgan,2012-12-13 Critical Theory is an interdisciplinary framework of analysis that was founded by a group of intellectuals working at the Institute for Social Research in Frankfurt am Main Germany While the Institute itself was established in 1923 the program of critical theory was not formalized until 1937 when Max Horkheimer the Director of the Institute at that time dubbed it as such in his essay Traditional and Critical Theory The Institute is frequently referred to simply as The Frankfurt School Its significance cannot be underestimated To this day there have been three generations of Frankfurt School academics but critical theory refers to something broader than just the work of the Institute for Social Research Critical theory now indicates a theoretical approach that is studied all over the world However the main interests and goals of the founding Institute still remain integral Foremost among these interests is the primary focus on the individual human being as the locus for social change Over the years many debates have ensued as to how the individual can achieve social change While these debates took Critical Theory in diverse directions S ren Kierkegaard a nineteenth century Danish religious thinker who emphasizes the individual s self imposed obligation to society at large played a major role Nevertheless Kierkegaard s impact on the development of Critical Theory has received scant study I aim to fill this scholarly lacuna My intention is to expose the complexity not only of Kierkegaard but of the Frankfurt School and their cohort Kierkegaard s relationship to Critical Theory suffered from the misappropriation of his works by philosophers and theologians associated with National Socialism This caused the Critical Theorists to view the content of Kierkegaard s philosophy itself as fascistic Ultimately I will highlight the ways in which Kierkegaard has been redeemed for a multiculture activist ethics today working vigorously in spirit with the fundamental aims of the Frankfurt School      **Romancing Antiquity** George E. McCarthy,John Paul Jones,1997 In this unique and comprehensive book George McCarthy examines the influence of Greek philosophy literature arts and politics on the development of twentieth century German social thought McCarthy demonstrates that the classical spirit vitalized thinkers such as Weber Heidegger Freud Marcuse Arendt Gadamer and Habermas With the romancing of antiquity they transformed their understanding of the modern self political community and Enlightenment rationality By viewing contemporary social theory from the framework of the classical world McCarthy argues we are capable of thinking beyond the limits of modernity to new possibilities of human reason science beauty and social justice      **The Cambridge Companion to Critical Theory** Fred Leland Rush,Fred Rush,2004-08-26 Critical Theory constitutes one of the major intellectual traditions of the twentieth century and is centrally important for philosophy political theory aesthetics and

theory of art the study of modern European literatures and music the history of ideas sociology psychology and cultural studies In this volume an international team of distinguished contributors examines the major figures in Critical Theory including Horkheimer Adorno Marcuse Benjamin and Habermas as well as lesser known but important thinkers such as Pollock and Neumann The volume surveys the shared philosophical concerns that have given impetus to Critical Theory throughout its history while at the same time showing the diversity among its proponents that contributes so much to its richness as a philosophical school The result is an illuminating overview of the entire history of Critical Theory in the twentieth century an examination of its central conceptual concerns and an in depth discussion of its future prospects

**1968** Wilber W. Caldwell, 2009 For the two generations who have grown up since Lyndon Johnson was president the events as well as the thinking behind the revolutionary and romantic pretensions of the 1960s are almost equally unclear This was the era of the Beatles the Rolling Stones and the Summer of Love it was also at the heart of

the civil rights and anti War movements The year 1968 saw the assassination of Martin Luther King Jr and Robert F Kennedy the ascendance of the hippies and Yippies Black Power Neo Marxism and the beginnings of Postmodernism When student radicals occupied Columbia University in 1968 they were showing solidarity with student uprisings in Paris and in Frankfurt This unique novel explores the tensions that were manifest in the student riots in West Germany following the shooting of the student leader Rudi Dutschke the student revolt at Columbia University and the tumultuous French May uprising all of which took place in the spring of 1968 At the heart of the book lie timely concerns regarding the impotence of liberalism within a self perpetuating system that is fluid enough to contain the forces that would bring about real change Technically a novel 1968 walks a fine line between fiction and nonfiction Through its historically faithful storyline its biographical portrayals of historical figures and its authentic and accurate intellectual grounding 1968 follows an entirely documentary agenda Well researched historical characters include Tom Hayden founder of the U S Students for a Democratic Society SDS Mark Rudd SDS chairman at Columbia Red Rudi Daniel Cohn Bendit Danny the Red now a member of the European Parliament Ted Gold of the explosive Weathermen Karl Wolff of the German SDS Herbert Marcuse father of the New Left Theodor Adorno father of modern Critical Theory Hannah Arendt and the ghosts of Walter Benjamin Charles Baudelaire and Karl Marx They interact with a cast of fictional characters in a real life story of militant politics cultural upheaval and intellectual radicalism Penetrating questions concerning civil disobedience and cultural hegemony run through the book Does revolutionary social change spring from a shift in culture as the hippies saw it Or does a new culture evolve out of revolutionary action as posited by Marx and the New Left What is the proper relationship between theory and practice Is this the revolutionary moment Who will lead the revolution now that working people have been seduced into the very fabric of late capitalism Marcuse's Challenge to Education Douglas Kellner, Tyson Lewis, Clayton Pierce, Daniel K. *Marxism's Ethical Thinkers* L. Recuperating the Classical Discussion of Marx et al.** Asger

Sørensen,2024-04-22 Nowadays alienation is naturally discussed as an existential condition of human beings but in the 20th century a strong Marxist current claimed alienation to be implied by capitalism in particular by private property and the social division of labor Alienation should therefore be criticized as part of the critique of capitalism and political economy and might therefore also possibly be overcome Today under the hegemony of neo liberal capitalism the basic logic of Marx s idea of alienation is more relevant than ever having as is argued in this book critical social as well as constructive pedagogical and political potential
