District(RCSD), City of Rochester ,1994 *High Cost of Free Parking* Donald Shoup,2021-02-25 Off street parking requirements are devastating American cities So says the author in this no holds barred treatise on the way parking should be Free parking the author argues has contributed to auto dependence rapid urban sprawl extravagant energy use and a host of other problems Planners mandate free parking to alleviate congestion but end up distorting transportation choices debasing urban design damaging the economy and degrading the environment Ubiquitous free parking helps explain why our

cities sprawl on a scale fit more for cars than for people and why American motor vehicles now consume one eighth of the world's total oil production. But it doesn't have to be this way. The author proposes new ways for cities to regulate parking, namely charge fair market prices for curb parking, use the resulting revenue to pay for services in the neighborhoods that generate it, and remove zoning requirements for off-street parking.

Effects of TOD on Housing, Parking, and Travel

Arrington, Robert Cervero, Transit Cooperative Research Program, 2008 explores the demographics of transit-oriented development, TOD residents and employers, and their motives for locating in TODs. The report also examines the travel characteristics of residence before and after moving to a TOD and ways to increase transit ridership among these residents. In addition, the report reviews the potential effect of land use and design features on travel patterns, transit ridership, and the decision to locate in a TOD, provided by publisher New Jersey Register, 2009.
