Machine Learning and Data Mining for Sports Analytics Ulf Brefeld,Jesse Davis,Jan Van Haaren,Albrecht Zimmermann,2019-04-06 This book constitutes the refereed post conference proceedings of the 5th International Workshop on Machine Learning and Data Mining for Sports Analytics MLSA 2018 colocated with ECML PKDD 2018 in Dublin Ireland in September 2018 The 12 full papers presented together with 4 challenge papers were carefully reviewed and selected from 24 submissions The papers present a variety of topics covering the team sports American football basketball ice hockey and soccer as well as the individual sports cycling and martial arts In addition four challenge papers are included reporting on how to predict pass receivers in soccer **Elements of Social and Political Philosophy** Jan J.T. Srzednicki,2012-12-06 The general purpose of this book differs from those of most of the works found traditionally in the field of political philosophy Firstly the present approach is in no way prescriptive or normative as the interest centres on explication rather than an evaluative assessment of this that or another type of arrangement or act 1 It will be clear that I am in complete disagreement with Gewirth when he claims that The central concern of political philosophy is the moral evaluation of political power It seems obvious that the understanding of political and social forms of life and a fortiori of political power must come before its evaluation This cannot be provided by moral assessment alone Thus an analytical or explicative approach which promotes such understanding must come first and must be the central concern of the appropriate philosophical discipline This is not to say that moral assessment is illegitimate nor even that it cannot be one of the concerns of political philosophy but it is to deny that it can be central even though it might be somebody s central interest To the extent to which this book is successful it will provide an argument in my favour if the job can be done obviously it is of primary importance But we should not assume that it cannot be done unless we can show that there is no separate sphere of political and or social phenomena
