

## Kolb's Learning Style Questionnaire

This questionnaire is designed to find out your preferred learning style(s) as an adult. Over the years, you have probably developed learning habits that help you benefit more from some experiences than from others. You may be unaware of this, and this questionnaire will help you pinpoint your learning preferences and share them with the other Community Facilitators.

This questionnaire will probably take you about 10 minutes to complete. The accuracy of your results depends on how honest you are. There are no right or wrong answers. **If you agree more than you disagree with a statement, place a tick (✓) in the box to the left of the question.** If you disagree more than you agree, leave the box blank. If you find yourself wondering which situation to think of when answering a question, just think about how you are when you are working with people. Go with your first gut reaction instead of over-thinking your response.
