**Flying Through Life** Robert J. Firth, 2013-05-22 This is a story written by a pilot who followed his father into commercial aviation It is on one hand the biography of a professional pilot and on other levels provides us with insight into the mental disciplines necessary to follow such a career path The story begins with a description of his life as a kid in rural New Jersey and follows him from his first flight to his last some fifty years latter As each passage of life ends a new begins The author provides us with an understanding of what it means to be a professional aviator and what he has learned along the way about his profession and about life We see him grow as a person and as a pilot We see the world through his eyes and gain an appreciation of his accumulated experiences both funny and those no so Anyone who has spent years looking down on the world most certainly develops a different view of things than those who meander along the surface This is certainly true of the author who provides the reader with a sense of his understanding along the way
