The Hidden Curriculum Brenda Smith Myles, Melissa L. Trautman, Ronda L. Schelvan, 2024-03-05 Shred through Social Confusion The world around us is a complicated place filled with expectations rules assumptions guidelines regulations and policies This hidden curriculum exists across environments places people and cultures Although rules and mandates can be complex most of us take comfort in them often unconsciously because they help us to know what to do in everyday situations We like rules if they are consistent It is when they are unclear or are unstated that we can become upset indignant or confused Some people learn the hidden curriculum and its impact automatically Others learn the hidden curriculum only by direct instruction That is the purpose of this book In this third edition the essential features of the original book have been maintained and information on evidence based practices has been added In addition it provides a series of instructional strategies that can be used to teach the hidden curriculum Instructional aids include charts forms and templates designed to make the job of teaching and learning the hidden curriculum more effective Finally The Hidden Curriculum offers extensive lists of hidden curriculum items or unstated guidelines Due to the elusive nature of the hidden curriculum the lists while broad offer examples rather than a definite set of lessons to be learned Parents educators support persons and others are encouraged to consider the lists as springboards to make their own lists geared specifically toward the unique needs of the individuals with whom they work or live

Authoring Autism M. Remi Yergeau, 2018-01-05 In

Authoring Autism M Remi Yergeau defines neurodivergence as an identity neuroqueerness rather than an impairment Using a queer theory framework Yergeau notes the stereotypes that deny autistic people their humanity and the chance to define themselves while also challenging cognitive studies scholarship and its reification of the neurological passivity of autistics They also critique early intensive behavioral interventions which have much in common with gay conversion therapy and questions the ableist privileging of intentionality and diplomacy in rhetorical traditions Using storying as their method they present an alternative view of autistic rhetoricity by foregrounding the cunning rhetorical abilities of autistics and by framing autism as a narrative condition wherein autistics are the best equipped people to define their experience Contending that autism represents a queer way of being that simultaneously embraces and rejects the rhetorical Yergeau shows how autistic people queer the lines of rhetoric humanity and agency In so doing they demonstrate how an autistic rhetoric requires the reconceptualization of rhetoric s very essence
