Human Trafficking Joan Reid, 2017-10-02 Human trafficking involves the violation of societal norms and often activates criminal justice responses including police courts juvenile justice and child protective services Due to the complex nature of human trafficking some behaviours that facilitate human trafficking cannot be easily

identified and assigned to conventional crime categories As a result of this complexity criminologists have yet to fully explore the problem of human trafficking In recent years however there has been a growing interest among criminologists in human trafficking and its intersections with the criminal justice system and overlap with conventional types of crime This edited collection of research aims to underscore these intersections in order to further improve the description explanation and prevention of human trafficking Research contained in this book provides a step forward by describing police perceptions and responses to human trafficking while also providing insight into victims with reports on victim perceptions of their treatment by the police Most notably this volume has moved research on human trafficking beyond descriptive frequencies to sophisticated multivariate analyses This book was originally published as a special issue of the Journal of Crime and Justice

Syndicate Women Chris M. Smith,2019-07-02 In *Syndicate Women* sociologist Chris M Smith uncovers a unique historical puzzle women composed a substantial part of Chicago organized crime in the early 1900s but during Prohibition 1920 1933 when criminal opportunities increased and crime was most profitable women were largely excluded During the Prohibition era the markets for organized crime became less territorial and less specialized and criminal organizations were restructured to require relationships with crime bosses These processes began with and reproduced gender inequality The book places organized crime within a gender based theoretical framework while assessing patterns of relationships that have implications for non criminal and more general societal issues around gender As a work of criminology that draws on both historical methods and contemporary social network analysis *Syndicate Women* centers the women who have been erased from analyses of gender and crime and breathes new life into our understanding of the gender gap **Handbook on**

Lane, 2020-11-13 The Other End of the Needle demonstrates that tattooing is more complex than simply the tattoos that people wear Using qualitative data and an accessible writing style sociologist Dave Lane explains the complexity of tattoo work as a type of social activity His central argument is that tattooing is a social world where people must be socialized manage a system of stratification create spaces conducive for labor develop sets of beliefs and values struggle to retain control over their tools and contend with changes that in turn affect their labor Earlier research has examined tattoos and their meanings Yet Lane notes prior research has focused almost exclusively on the tattoos the outcome of an intricate social process and have ignored the significance of tattoo workers themselves Tattooists as Lane dubs them make decisions but they work within a social world that constrains and shapes the outcome of their labor the tattoo The goal of this book is to help readers understand the world of tattoo work as an intricate and nuanced form of work Lane ultimately asks new questions about the social processes occurring prior to the tattoo s existence *Transforming Justice, Transforming Lives* April Bernard, 2015-10-30 What is a just response to persons seeking to desist from criminal behavior In America over the last several decades mass incarceration has emerged as the prevailing policy response to crime and reoffending The majority of those who are imprisoned will be released and those that are released tend to return to communities challenged by high rates of violence crime unemployment and poverty In these conditions without some type of intervention persons with criminal histories are likely to reoffend April Bernard through compelling interviews and field research with formerly gang affiliated women illuminates how through community support and their active engagement in

peacemaking work in distressed neighborhoods throughout Chicago they were able to desist from crime rebuild their lives and become meaningful contributors to their communities This book explores the role of community in facilitating the commitment to desist from crime by offering critical support and opportunities for stewardship Bernard provides a timely analysis of the transformative potential of a new perspective on criminal justice which incorporates stewardship and community engagement as a fundamental principal in the response to persons seeking to desist from criminal behavior particularly women The book combines moving personal narratives with concrete practical evidence to call for an alternative to ideology that supports the existing punitive policies and practices of the criminal justice system and the corresponding lack of interventions and opportunities for persons seeking to desist from crime This deeply informed and perceptive analysis concludes with suggestions for alternatives that fit within a transformative justice paradigm

Trafficking Trajectories Alicia W. Peters, 2025-07-15 Highlights the role structural vulnerability plays in the lived realities of domestic sex trafficking survivors before during and after trafficking Drawing on survivor narratives and ethnographically rich accounts from frontline workers in New England specifically Maine and New Hampshire Trafficking Trajectories contextualizes the ways in which structural vulnerability is embodied by domestic sex trafficking survivors in complex ways over time The book also makes legible where and when upstream responses are most needed to prevent trafficking from occurring Trafficking Trajectories counters the dominant trafficking narrative of victims and villains and how this narrative decontextualizes and isolates the period of victimization and rescue from broader experiences of vulnerability Instead Alicia Peters centers survivor experience to highlight the role of structural violence and vulnerability before during and after trafficking Focusing on the lived realities of survivors she argues that prioritizing an interventionist criminal legal response to trafficking does little to address the issues that make individuals vulnerable to trafficking in the first place and fails to end trafficking Peters combines nuanced accounts of survivors with the

observations and quandaries faced by frontline workers to reveal opportunities for rethinking and broadening the response to trafficking to make it more focused on prevention and thus more effective The book reframes trafficking not as sporadic instances of interpersonal violence requiring criminal legal intervention but as structural violence that requires systematic and preventive intervention Trafficking Trajectories concludes with a series of policy recommendations intended to address human trafficking at its root
