Buying Power Lawrence B. Glickman, 2009-06-10 A definitive history of consumer activism Buying Power traces the lineage of this political tradition back to our nation's founding revealing that Americans used purchasing power to support causes and punish enemies long before the word boycott even entered our lexicon Taking the Boston Tea Party as his starting point Lawrence Glickman argues that the rejection of British imports by revolutionary patriots inaugurated a continuous series of consumer boycotts campaigns for safe and ethical consumption and efforts to make goods more broadly accessible He explores abolitionist led efforts to eschew slave made goods African American consumer campaigns against Jim Crow a 1930s refusal of silk from fascist Japan and emerging contemporary movements like slow food Uncovering previously unknown episodes and analyzing famous events from a fresh perspective Glickman illuminates moments when consumer activism intersected with political and civil rights movements He also sheds new light on activists relationship with the consumer movement which gave rise to lobbies like the National Consumers League and Consumers Union as well as ill fated legislation to create a federal Consumer Protection Agency *Childfree by Choice* Dr. Amy Blackstone, 2019-06-11 From Dr Amy Blackstone childfree woman co creator of the blog we re not having a baby and nationally recognized expert on the childfree choice comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood what it means for our society economy environment perceived gender roles and legacies and how understanding and supporting all types of families can lead to positive outcomes for parents non parents and children alike As a childfree woman Dr Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn't have nor does she want kids confused looks patronizing quips thinly veiled pity even outright scorn and condemnation But she is not alone in opting out when it comes to children More people than ever are choosing to forgo parenthood and openly discussing a choice that's still often perceived as taboo Yet this choice and its effects personally and culturally are still often

misunderstood Amy Blackstone a professor of sociology has been studying the childfree choice since 2008 a choice she and her husband had already confidently and happily made Using her own and others research as well as her personal experience Blackstone delves into the childfree movement from its conception to today exploring gender race sexual orientation politics environmentalism and feminism as she strips away the misconceptions surrounding non parents and reveals the still radical notion that support of the childfree can lead to better lives and societies for all *Shopping for Change* Louis Hyman, Joseph Tohill, 2017-06-15 Consuming with a conscience is one of the fastest growing forms of political participation worldwide Every day we make decisions about how to spend our money and for the socially conscious these decisions matter Political consumers buy green for the environment or they buy pink to combat breast cancer They boycott Taco Bell to support migrant workers or Burger King to save the rainforest But can we overcome the limitations of consumer identity the conservative pull of consumer choice co optation by corporate marketers and other pitfalls of consumer activism in order to marshal the possibilities of consumer power Can we quite literally shop for change *Shopping for Change* brings together the historical and contemporary perspectives of academics and activists to show readers what has been possible for consumer activists in the past and what might be possible for today s consumer activists *Until Justice Be Done* Kate Masur, 2021-03-23 Finalist for the 2022 Pulitzer Prize in History Finalist for the 2022 Lincoln Prize Winner of the American Historical Association s Littleton Griswold Prize Winner of the John Nau Book Prize in American Civil War Era History Winner of the American Society for Legal History s John Phillip Reid Book Award One of NPR s Best Books of 2021 and a New York Times Critics Top Book of 2021 A groundbreaking history of the movement for equal rights that courageously battled racist laws and institutions Northern and Southern in the decades before the Civil War The half century before the Civil War was beset with conflict over equality as well as freedom Beginning in 1803 many free states enacted laws that discouraged free African Americans from settling within their boundaries and restricted their rights to testify in court move freely from place to place work vote and attend public school But over time African American activists and their white allies often facing mob violence courageously built a movement to fight these racist laws They countered the states insistences that states were merely trying to maintain the domestic peace with the equal rights promises they found in the Declaration of Independence and the Constitution They were pastors editors lawyers politicians ship captains and countless ordinary men and women and they fought in the press the courts the state legislatures and Congress through petitioning lobbying party politics and elections Long stymied by hostile white majorities and unfavorable court decisions the movement s ideals became increasingly mainstream in the 1850s particularly among supporters of the new Republican party When Congress began rebuilding the nation after the Civil War Republicans installed this vision of racial equality in the 1866 Civil Rights Act and the Fourteenth Amendment These were the landmark achievements of the first civil rights movement Kate Masur s magisterial history delivers this pathbreaking movement in vivid detail Activists such as John Jones a free Black tailor from

North Carolina whose opposition to the Illinois black laws helped make the case for racial equality demonstrate the indispensable role of African Americans in shaping the American ideal of equality before the law Without enforcement promises of legal equality were not enough But the antebellum movement laid the foundation for a racial justice tradition that remains vital to this day
