The Day the Dancers Stayed Theodore S. Gonzalves, 2009-09-25 *Pilipino Cultural Nights at American campuses* have been a rite of passage for youth culture and a source of local community pride since the 1980s Through performances and parodies of them these celebrations of national identity through music dance and theatrical narratives reemphasize what it means to be Filipino American In *The Day the Dancers Stayed* scholar and performer Theodore Gonzalves uses interviews and participant observer techniques to consider the relationship between the invention of performance repertoire and the development of diasporic identification Gonzalves traces a genealogy of performance repertoire from the 1930s to the present Culture nights

serve several functions as exercises in nostalgia celebrations of rigid community entertainment and occasionally forums for political intervention Taking up more recent parodies of Pilipino Cultural Nights Gonzalves discusses how the rebellious spirit that enlivened the original seditious performances has been stifled The Ethnic Avant-Garde Steven S.

Lee,2015-10-06 During the 1920s and 1930s American minority artists and writers collaborated extensively with the Soviet avant garde seeking to build a revolutionary society that would end racial discrimination and advance progressive art Making what Claude McKay called the magic pilgrimage to the Soviet Union these intellectuals placed themselves at the forefront of modernism using radical cultural and political experiments to reimagine identity and decenter the West Shining rare light on these efforts The Ethnic Avant Garde makes a unique contribution to interwar literary political and art history drawing extensively on Russian archives travel narratives and artistic exchanges to establish the parameters of an undervalued ethnic avant garde These writers and artists cohered around distinct forms that mirrored Soviet techniques of montage fragment and interruption They orbited interwar Moscow where the international avant garde converged with the Communist International The book explores Vladimir Mayakovsky s 1925 visit to New York City via Cuba and Mexico during which he wrote Russian language poetry in an Afro Cuban voice Langston Hughes s translations of these poems while in Moscow which he visited to assist on a Soviet film about African American life a futurist play condemning Western imperialism in China which became Broadway s first major production to feature a predominantly Asian American cast and efforts to imagine the Bolshevik Revolution as Jewish messianic arrest followed by the slow political disenchantment of the New York Intellectuals Through an absorbing collage of cross ethnic encounters that also include Herbert Biberman Sergei Eisenstein Paul Robeson and Vladimir Tatlin this work remaps global modernism along minority and Soviet centered lines further advancing the avant garde project of seeing the world anew **Making an American Festival** Chiou-ling Yeh,2023-11-15

Museus,Dina C.

Maramba,Robert T. Teranishi,2023-07-03 While Asian Americans and Pacific Islanders AAPIs are growing faster than any other racial group in the U S they are all but invisible in higher education and generally ignored in the research literature

and thus greatly misrepresented and misunderstood This book presents disaggregated data to unmask important academic achievement and other disparities within the population and offers new insights that promote more authentic understandings of the realities masked by the designation of AAPI In offering new perspectives conceptual frameworks and empirical research by seasoned and emerging scholars this book both makes a significant contribution to the emerging knowledge base on AAPIs and identifies new directions for future scholarship on this population Its overarching purpose is to provide policymakers practitioners and researchers in higher education with the information they need to serve an increasingly important segment of their student populations In dispelling such misconceptions as that Asian Americans are not really racial minorities the book opens up the complexity of the racial and ethnic minorities within this group and identifies the unique challenges that require the attention of anyone in higher education concerned with student access and success as well as the pipeline to the professoriate

Education at War Arshad Imtiaz Ali,2018-04-10

Education at War The Fight for Students of Color in America s Public Schools attempts to shape educational research and practice to more explicitly consider the relationship between education capitalism and war and more specifically its impact on students of color The authors as a whole contend that the contemporary specter of war has become a central way that racism and materialism become manifested and practiced within education In particular this collection asserts that the contemporary neoliberal characterization of education and school based reform is situated within the global political economy that has facilitated a growth in the prison and military industrial complex and simultaneous divestment in education domestically within the U S Education at War attempts to make research relevant by bringing the tensions within young people s lives to the fore The heavy shadow cast by recent U S led wars re organizes the sites of learning and teaching nationally as well as differentially within specific sites and upon particular communities Nonetheless the examination of this context is not enough Rather we consider how such a contemporary context can facilitate educational spaces for communities and youth to grow their vision for a different and hopefully a more humanizing future Thus the book contributors will collectively explore how resistance can produce the opportunity for rich diverse and transformative learning for marginalized students and communities The lives of People of Color are the forefront of Education at War The Fight for Students of Color in America s Public Schools Whereas there are many attempts to theorize about the global implications of war less attention is paid to the ways that war shapes young lives in the U S particularly in an educational context The book addresses the absence of youth centered discussions regarding education during a political context of neoliberalism and war and provides important perspectives on which to ground critical discussions among students and families education scholars and practitioners and policymakers

Chains of Babylon Daryl J. Maeda,2009 In Chains of Babylon Daryl J Maeda presents a cultural history of Asian American activism in the late 1960s and early 1970s showing how the movement created the category of Asian American to join Asians of many ethnicities in racial solidarity Drawing on the Black Power and antiwar movements Asian American radicals argued that all Asians in the United States should resist assimilation and band together to oppose racism within the country and imperialism abroad As revealed in Maeda s in depth work the Asian American movement contended that people of all Asian ethnicities in the United States shared a common relationship to oppression

and exploitation with each other and with other nonwhite peoples In the early stages of the civil rights era the possibility of assimilation was held out to Asian Americans under a model minority myth Maeda insists that it was only in the disruption of that myth for both African Americans and Asian Americans in the 1960s and 1970s that the full Asian American culture and movement he describes could emerge Maeda challenges accounts of the post 1968 era as hopelessly divisive by examining how racial and cultural identity enabled Asian Americans to see eye to eye with and support other groups of color in their campaigns for social justice Asian American opposition to the war in Vietnam unlike that of the broader antiwar movement was predicated on understanding it as a racial specifically anti Asian genocide Throughout he argues that cultural critiques of racism and imperialism the twin chains of Babylon of the title informed the construction of a multiethnic Asian American identity committed to interracial and transnational solidarity
