Legal Aspects Of Equipment Leasing In Latin America:

Legal Aspects of Equipment Leasing in Latin America: A Financial Tool for Business in Latin America Rafael Triana, 2001-10-10 Leasing is the financial tool of the future for Latin America. A study of the causes, the evolution and the dimension of the external debt problem in Latin America lead the author to conclude that the flow of petrodollars in the 1970s to the oil producing countries in South America did not result in a real investment or economic growth. Growth did not occur because the fragile cash structure that exists in South America can allow for a deviation of cash flow to uses different from those originally intended. This sort of deviation can not occur with leasing because leasing does not provide for delivery of cash but rather of tangible and productive assets which can not be diverted from their intended purpose. An overview of the leasing business in Latin America including a description of its role in modern life, its potential use as a tool to satisfy market demand and its legal nature and the regulations that govern it are analyzed herein. Equipment leasing has become the dominant and most feasible tool for effectivizing sales of capital goods, equipment, machinery and technological devices to Latin America. *Legal Aspects of Doing Business in Latin America 2009* Christian, Editor Campbell, 2009 Volume I 2009 Edition Argentina Costa Rica. *Legal Aspects of Doing Business in Latin America* a two volume set with 800 pages provides a survey of the requirements for doing business and investing in the Latin America region. Purchase includes 24/7 online access. The reports are prepared by local business practitioners and offer practical insights into issues relating to selection of form for doing business, incentives, taxation, labor and employment, liabilities and dispute resolution. Order volume II to complete the set. The publication is replaced by an updated volume annually. A 10% discount applies to a subscription for next year's update. A 25% discount applies to a subscription for three years of updates. Discounts are applied after purchase by rebate from publisher. European Legal Book Index, 2001 International Leasing Simon S. Gao, 2018-12-20 First published in 1999. This book aims to study international leasing in which it mainly looks at leasing on an international scale considering how we define leasing itself and in the context of the international financial world. **Bowker's Law Books and Serials in Print**, 2000 **Revue de droit uniforme**, 2002 *Structured Finance in Latin America* Hela Cheikhrouhou, 2007. *Structured Finance in Latin America* explores how structured finance mechanisms can channel pension savings to support projects in underserved sectors, deepen capital markets and contribute to investment and economic growth. Private pension funds have been accumulating assets rapidly in the wake of pension system reforms in many Latin American countries. Strict investment regulations to protect workers' savings have limited their investment in highly creditworthy domestic securities, yet pension fund demand for new securities has outstripped issuance of eligible traditional corporate debt instruments. This has contributed to a high concentration of pension fund assets in public debt. Innovative structured finance mechanisms can help bring to the market a new set of creditworthy securities backed by pools of loans to small borrowers, mortgage loans or the expected proceeds of large infrastructure projects. These mechanisms create new investment opportunities for pension

funds while establishing additional sources of funding for underserved market segments Policy makers and regulatory authorities have a catalytic role to play in the development of structured finance securities by establishing a conducive legal regulatory and tax framework Structured Finance in Latin America serves as a practical guide for development practitioners policy makers and others working in government international or nongovernmental organizations and financial institutions who focus on finance and investment infrastructure transport and urban development housing finance small and medium sized enterprise development and pension reform **Harvard Business Review** ,1927 Includes sections Review of business literature and Book notices **Facing Up to Inequality in Latin America** Inter-American Development Bank,1998 Statistical appendix pp 203 282 *Marketing Information Guide* ,1959 **Managing Risk and Creating Value with Microfinance** Mike Goldberg,Eric Palladini,2010-04-01 20110614 **Energy Abstracts for Policy Analysis** ,1984 Law Books in Print: Author Nicholas Triffin,1987 **Business America** ,1997 Includes articles on international business opportunities *Governmental Leasing Tax Act of 1983* United States.
