Edwin Sidney Hartland

Legend Perseus Tradition Adromeda Medusa:

The Legend of Perseus Edwin Hartland, 2020-05-08 The two incidents in the legend of Perseus which stood over for examination in the present volume were the rescue of Andromeda and the Medusa witch Examining the rescue incident first as it appears in Murchen and then in sagas Mr Hartland points out that popular as the story of the rescue of the devoted maiden is and appealing as it does to the imagination it is not a little remarkable that it appears to be indigenous only in the Old World On the other hand legends of the slaughter of a destructive monster where there is no specific human being to deliver not only extend beyond these limits but frequently form part of the cosmogony of peoples alien in race and occupying distant portions of the globe The question is Does this difference in range of two distinct classes of rescue traditions help us to any satisfactory hypothesis as to the origin of the more important of the two the Andromeda type Noting first that the veneration of the lower animals is one of the rudest and oldest forms of religious conceptions and was kept alive by the amazing toughness of tradition in cults of a much higher grade like those of Egypt and ancient Greece Mr Hartland goes on to point out that to living gods like these food was a daily necessity and savage nations on days of festival or under stress of some great impending calamity would not hesitate to give human flesh to such of those gods as were carnivorous These two factors in the history of savage religion provide the necessary explanation of the monster dragon or serpent and the devoted maiden in the Andromeda tradition There is left then only the rescue incident for elucidation and Mr Hartland meets this by the acute suggestion that if by the concurrence of an advance in civilization and a political revolution the worship of an animal deity demanding the sacrifice of a human being were suppressed he would become in tradition a deadly monster and the milder divinity who succeeded to his place in popular regard would be credited with his conquest and destruction The Legend of Perseus Edwin Sidney Hartland (LL.D., Lit.D., F.S.A.), 1894 **The Legend of Perseus()**, 1894 The Legend of Perseus Edwin Sidney Hartland, 1894 **The Legend of Perseus** Edwin Sidney Hartland, 1896 **The Legend of Perseus: Andromeda. scholarly work on tragic patterns and allusions in Flavian epic the publication of a volume exclusively dedicated to the relationship between Flavian epic and tragedy is timely The volume concentrating on the poetic works of Silius Italicus Statius and Valerius Flaccus consists of eight original contributions two by the editors themselves and a further six by experts on Flavian epic The volume is preceded by an introduction by the editors and it concludes with an Afterword by Carole E Newlands Among key themes analysed are narrative patterns strategies or type scenes that appear to derive from tragedy the Aristotelian notions of hamartia and anagnorisis human and divine causation the transfer of individual characters from tragedy to epic as well as instances of tragic language and imagery The volume at hand showcases an array of methodological approaches to the question of the presence of tragic elements in epic Hence it will be of interest to scholars and students in the area of Classics or Literary Studies focusing on such intergeneric and intertextual connections it will be also of interest to scholars working on Flavian epic or on the ancient reception of Greek and Roman tragedy
