After the end of World War II the Piaget company built a state of the art factory and captured new markets gaining more women clients by developing ultra thin watches. Piaget became synonymous with luxury timepieces and in the 1960s it leaped to international fame as the company opened a showroom in Geneva and presented products embellished with precious stones. The 1970s saw the debut of ultra thin electronic mechanisms and in the following decade clients commissioned Piaget to create the most precious watches in the world.
