Legitimationsprobleme Im Spätkapitalismus:

Legitimationsprobleme im Spätkapitalismus Jürgen Habermas, 1973 **Die politische Theorie von Jürgen Habermas** Matthias Restorff, 1997 *Legitimation Crisis* Juergen Habermas, 1975-08-25 Critical Theory originated in the perception by a group of German Marxists after the First World War that the Marxist analysis of capitalism had become deficient both empirically and with regard to its consequences for emancipation and much of their work has attempted to deepen and extend it in new circumstances Yet much of this revision has been in the form of piecemeal modification In his latest work Habermas has returned to the study of capitalism incorporating the distinctive modifications of the Frankfurt School into the foundations of the critique of capitalism Drawing on both systems theory and phenomenological sociology as well as Marxism the author distinguishes four levels of capitalist crisis economic rationality legitimation and motivational crises In his analysis all the Frankfurt focus on cultural personality and authority structures finds its place but in a systematic framework At the same time in his sketch of communicative ethics as the highest stage in the internal logic of the evolution of ethical systems the author hints at the source of a new political practice that incorporates the imperatives of evolutionary rationality **Jürgen Habermas** Luca Corchia, 2010 [The Critique of Instrumental Reason from Weber to Habermas](#) Darrow Schecter, 2010-05-20 What different kinds of reason are possible and which ones are the most appropriate for a legitimate as opposed to a merely legitimated state The book opens with an analysis of Weber as a figure who marks a key moment of sociological transition Weber articulates a distinctly different view to Enlightenment thinkers who believe in the capacity of reason to improve society and emancipate humanity from ignorance and domination Weber signals that the institutionalization of the instrumental reason particular to industrial society might actually be an effective tool in the struggle for social supremacy He notes that in comparison with charismatic and traditional legitimation modern forms of legal rational legitimation are de personalised anonymously bureaucratic and much more difficult to combat The book then looks at various responses to Weber's diagnosis from Lukács and Benjamin to Horkheimer Adorno Heidegger Arendt Simmel Foucault and Habermas The study culminates with a sociological reading of critical theory that draws together Adorno's concept of non identity with Habermas on communicative reason and Luhmann on social complexity and differentiation *Crises in Authoritarian Regimes* Jörg Baberowski, Martin Wagner, 2022-01-19 Krisen offenbaren die Fragilität der Ordnung und fordern die Macht heraus Wie gehen autoritäre Regime mit ihnen um Welche Stärken und Schwächen zeigen sie in der Krisenbewältigung verglichen mit demokratischen Ordnungen Wie lässt sich ihre Anpassungsfähigkeit und Persistenz erklären Die Beiträge dieses Bandes verbinden die Sichtweisen von Politikwissenschaft Geschichte Literaturwissenschaft Soziologie und Regionalwissenschaften auf gegenwärtige und untergegangene Regime in Afrika Ost und Zentralasien Ost und Westeuropa und Lateinamerika Die Fallstudien beleuchten die Verdichtung autoritärer Herrschaft in der Krise die meist zwei konträre Ziele verfolgt die Stabilität zu erhalten und die eigene Herrschaft zu erneuern *Habermas und der Historische*

Materialismus Smail Rapic, 2016-07-12 Seit dem Ausbruch der Weltfinanzkrise 2008 ist die Kapitalismus Kritik von Karl Marx und Friedrich Engels von neuem ins öffentliche Bewusstsein gerückt Auf einer Tagung an der Universität Wuppertal haben Vertreter verschiedener Disziplinen mit Jürgen Habermas über seine Rekonstruktion des Historischen Materialismus diskutiert Durch die Mitwirkung von Karl Otto Apel und Agnes Heller wurden Grundfragen der Habermas'schen Kommunikationstheorie und ihre Rolle in der Geschichte des westlichen Marxismus in die Diskussion einbezogen Was den Band von sonstigen Tagungsbanden abhebt sind die Entgegnungen von Jürgen Habermas sowie repräsentative Ausschnitte aus der öffentlichen Diskussion

The Marxian Legacy Dick Howard, 2019-02-14 The Marxian Legacy first published in 1977 and released in a second edition in 1988 was and remains distinct in its view of Marxian theory as critique aware of its own origins and limitations and self-conscious about its own historical rootedness in changing social and political conditions This new and fully revised third edition retains the original synthesis of the divergent traditions of German critical and French Marxism into a living Marxian legacy that changes and reconceptualizes itself while also providing a new critical introduction and concluding chapter Such a re-evaluation of the Marxian legacy which was urgent in the 1970s when the United States was caught up in imperial wars and domestic as well as racial conflict remains relevant today when as was the case nearly half a century ago Marx's legacy has largely been forgotten and yet remains as a symbol of radical thinking that could inspire the new movements The Marxian Legacy 3rd Edition retains the freshness of discovery from those times while fully updating the text for our contemporary moment and adding two features a philosophical closure and a perspective on what was possible then and what remains to be done today

Durkheimian Sociology Jeffrey C. Alexander, 1990-09-13 The classic works of Emile Durkheim are characterized by a structural approach to the understanding of collective behaviour and it is this element of his writings that has been most taken up by modern social science This volume however rejects the dominant structural approach and draws instead on Durkheim's later work in which he shifted to a symbolic theory of modern industrial societies that emphasized the importance of ritual and placed the tension between the sacred and the profane at the center of society In so doing the contributors offer both a radically different approach to Durkheimian sociology and a new way of linking the interpretation of culture and the interpretation of society In his introduction to the volume Jeffrey Alexander elaborates the new interpretation of Durkheim that informs the contributions His arguments form a background for the lively and provocative chapters that follow which provide broadly cultural interpretations of such topics as popular upheavals and social movements ranging from the French Revolution to the massive rebellions in Poland and Nicaragua in the 1980s political crisis from Watergate to the crisis of legitimation in contemporary capitalism and the creative and contingent element in symbolic behaviour including the symbolics of intimate friendship and the ritual and rhetoric of media events In addition to re-examining Durkheimian sociology the essays also demolish the myth that attention to cultural values implies conservatism or the inability to analyze social change and challenge the common antithesis

between normative theory and microsociology Its exploration of the links between Durkheimian sociology and the most important developments in contemporary sociology history anthropology and semiotics will ensure it a broad appeal across the social sciences

Claus Offe and the Critical Theory of the Capitalist State Jens Borchert,Stephan Lessenich,2016-04-28 Back in 1972 German political sociologist Claus Offe published a book on the Structural Problems of Late Capitalism which for almost two decades inspired and stimulated an international and transdisciplinary debate on the role of the state in contemporary capitalism An academic debate which paradoxically began to wane as the issues about which Offe had been writing became even more prominent the Contradictions of the Welfare State the title of a collection of Offe s main contributions to the debate published in English in 1984 and democratic capitalism s reality of the permanent crises of crisis management Since 2008 it has again become a widely shared diagnosis that advanced capitalism is in crisis However there is either scholarly disagreement or more often so mere perplexity when it comes to understanding this crisis and to explaining the prevalent patterns in dealing with it In this volume Jens Borchert and Stephan Lessenich critically combine a reconstruction Claus Offe s approach to state theory with an analysis of the current constellation of democratic capitalism based on that same theory In doing so they expertly argue that his relational approach to state theory is much better equipped analytically to grasp the contradictory dynamics of the financial crisis and its political regulation than competing contributions This is why systematically revisiting the theory of late capitalism is not only of a historical concern but constitutes an essential contribution to a political sociology of our time

Democracy in Modern Europe Jussi Kurunmäki,Jeppe Nevers,Henk te Velde,2018-06-19 As one of the most influential ideas in modern European history democracy has fundamentally reshaped not only the landscape of governance but also social and political thought throughout the world Democracy in Modern Europe surveys the conceptual history of democracy in modern Europe from the Industrial Revolutions of the nineteenth century through both world wars and the rise of welfare states to the present era of the European Union Exploring individual countries as well as regional dynamics this volume comprises a tightly organized comprehensive and thoroughly up to date exploration of a foundational issue in European political and intellectual history

The Theory of New Classical Macroeconomics Peter Galbács, 2015-04-23 This book examines new classical macroeconomics from a comparative and critical point of view that confronts the original texts and later comments as a first dimension of comparison The second dimension appears in a historical context since none of the new classical doctrines can be analyzed ignoring the parallelism and discrepancies with the theory of Keynes Friedman or Phelps Radicalism of new classical macroeconomics has brought fundamental changes in economic thought but the doctrines got vulgarized and distorted thanks to the mass of followers Nowadays economic theory and policy trying to find their ways have a less clear relationship than ever Therefore this volume is aimed at mapping and reconsidering the policy instruments and transmission mechanisms offered by the new classicals Its central question points to the real nature of new classical macroeconomics what consequences are grounded by the assumptions new classicals used Moreover issues raised by automatic fiscal stabilizers and fiscal reforms are analyzed as well even if they were out of the range of classical texts The book draws a picture of new classical macroeconomics stressing the analogies with Keynesian countercyclical policies instead of the discrepancies commonly held

The General Law of Capitalist Accumulation in Latin America and Beyond Lorenzo Fusaro,, Leinad Johan Alcalá Sandoval, 2022-03-28 This edited collection engages with Marx's General Law of Capitalist Accumulation examining the relevance and actuality of Marx's propositions for the analysis of contemporary capitalism in Latin America and beyond The contributors offer an original and updated interpretation of Marx while also examining important topics in political economy The contributors bring critical insights into scholarly debates on imperialism exploitation labor and development

War, Peace and the Military Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of rethinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society

Josua und Salomo Christa Schäfer-Lichtenberger, 2014-09-03 *Josua und Salomo* puts forward the thesis that the literary figure of the successor was created by circles who strongly relied on the book of Deuteronomy In order to construct the ideal of a successor they used the characters of Joshua and Solomon and implemented the results of their theological reflection which were unleashed by the complete destruction of the pre exilic political social and religious organization of the nation The figure of Joshua combines all the traits of their theological conception of an ideal political leader whereas the figure of

Solomon demonstrates the dangers which are implied in monarchical succession From the theological perspective of deuteronomism Solomon and Joshua are opposite characters The deuteronomic concepts of God and authority play a central role for the reflection on both characters
