Go digital for a grand less than an M7

THERE'S THE FLAWLESS SATIN metal finish...silky smooth lens rings...near-inaudible click of the shutter...massive bricklike body....

Massive bricklike body?? We're sure Leicaphiles everywhere will do a double take (as we did) when they lay their eyes and mitts on this BIG interpretation of the classic Leica rangefinder. And then comes the triple take when they raise the Digilux 2 to eye level, because this is not your Uncle Berthold's rangefinder—it's an electronic-viewfinder digicam.

The new Digilux 2 (\$1,850 street) indeed looks as if the controls from a

classic mechanical camera were grafted onto it: rotary shutter-speed dial, plus lens rings for aperture, zooming, and manual focus. Many other functions are accessed by dials, lever switches, or buttons, rather than multiple branching menus.

But in operation, this is no retro replica. The camera powers up fully in about one second. A button lets you switch between the EVF and the massive LCD screen; both are top-notch. The 235,000-pixel EVF is

about medium-grained, but very sharp and bright, with almost no jumpiness. The 2.5-inch monitor is gorgeous—very fine-grained, with excellent color. It makes reviewing pictures a pleasure, and the camera has both quick-review and quick-delete buttons. Twirl the back control dial and the image will be magnified up to 8X (equivalent to viewing a section of an 11.5x15.5-inch blowup).

Pick up the camera, and the first thing you'll notice is its bulk and heft (although in comparison to many current digital SLRs, it might be considered quite svelte). All of our testers, even our smallest-handed one, liked the handling of the camera.

Size does have its advantages. The back dials, buttons, and levers are well-spaced, but still within easy reach of the thumb. The battery, a big slug

What's Hot

Spectacular fit and finish.
Big, clear LCD monitor.
Menus readable at arm's length.
Real live built-in bounce flash, with adjustable output.
Clearly marked, logical controls.
Long battery life.

What's Not

Fits no normal pocket.
No manual-focus confirmation.
No burst mode for RAW capture.
For \$1,850, a case is optional? No ISO higher than 400.
Still an awful lot of bucks for a 5MP camera.
